

## Medicare GenerationRx Cancellation Letters

Medicare-eligible PEEHIP members recently received a Medicare GenerationRx cancellation letter as a result of PEEHIP implementing its new United Health Care Group Medicare Advantage Plan which includes prescription drug coverage. Medicare requires the old company to notify members of the cancellation. Unless a member previously and voluntarily opted out of this new plan, **they are automatically enrolled in the new UHC Medicare Advantage plan.** The new coverage will be effective January 1, 2017 and eligible members should receive their new card soon if they have not already. Members can call United Health Care at 877-298-2341 for specific details about the new coverage.
