

### **Week 2 Update**

The Legislature convened for the fourth, fifth, and sixth legislative days of the Regular Session this week.

The House passed HB138, by Rep. Paschal, which will allow RSA retirees to work full-time as bus drivers without suspension of their benefits, so long as they were retired as of January 1, 2026, or had drawn a retirement benefit for 12 consecutive months.

One new bill impacting RSA was filed this week. HB312, by Rep. Hill, would increase the benefit multiplier for district attorneys from 3% to 4%. The bill would also modify the time period used to calculate the final average salary for judges and district attorneys, from five years to one year.
