

advertising for the improvement of Alabama tourism.

Real estate continued to be an active area for the RSA during the fiscal year. In Mobile, the RSA has helped to fund and advertise the city's waterfront terminal development. Carnival Cruise Lines is home porting the *Holiday* at the Mobile terminal and is scheduling 72 three-, four- and five-day cruises per year. The Renaissance Ross Bridge Golf Resort and Spa on the Robert Trent Jones Golf Trail and the golf course in Hoover are scheduled to be completed in the spring and are located next to the Oxmoor Valley courses in Birmingham. The fourstar hotel will contain a spa, three-level pool, conference center and clubhouse. In Northwest Alabama, the Shoals project, the ninth site on the Trail, is the newest site with 18 holes now open. The entire 36-hole facility and four-star Marriott Shoals Hotel and Spa, and Conference Center on the Robert Tent Jones Golf Trail is scheduled for completion in the spring.

The Alabama Cruise Terminal opens in Mobile, with Carnival Cruise Lines' Holiday in port.

such litigation is usually only five to ten cents on the dollar. The RSA has and will continue to be committed to preserving the integrity of the financial markets, including the pursuit of Enron.

The staff will continue to purchase and develop investments that will facilitate the mission of the RSA. Our aim is to serve the interests of our members by preserving the excellent benefits and soundness of the Systems while providing these at the least expense to the State of Alabama and all Alabama taxpayers. With the continued cooperative efforts of the Boards of Control, the RSA staff, and the Legislature, this goal will be achieved.

RSA FOUNDATION

Tourism produces over \$6.8 billion in revenue for the state of Alabama compared to \$1.8 billion eleven years ago. The Robert Trent Jones Golf Trail is one of the building blocks that helped establish Alabama as a tourist destination.

RSA for the FUTURE

By investing in Alabama, the RSA is setting in motion the foundation for a strong and vibrant state that will continue to grow and strengthen for future generations. •

As RSA's investments continue to grow and diversify so does RSA's legal work, with securities litigation and airline issues dominating the year for the legal staff.

To protect RSA's assets and the integrity of the marketplace, the RSA has continued to actively pursue the perpetrators, aiders and abettors of securities fraud. As an individual plaintiff in state court in the Enron and WorldCom scandals and as lead plaintiff in national class action securities fraud cases in federal court relating to HealthSouth, ICG Communications, and Providian Financial Corporation, we have won major, precedent setting decisions in several of these cases.

The legal staff continued to be involved in issues relating to US Airways, including bankruptcy proceedings and governance of US Airways. Efforts relating to RSA's other aviation interests include the disposition of aircraft interests, which reverted to the RSA from US Airways and United Airlines.

Several of RSA's other investments, particularly its developments in Mobile, Hoover, Montgomery and the Shoals, have created a myriad of legal issues and challenges, including some litigation. However, all have been, to date, resolved satisfactorily to facilitate RSA's investment and development. In addition, the legal staff addressed legal issues which continue to arise on RSA's mature investment development projects, including the RTJ Golf Trail. Also, there were issues relating to potential development projects and those issues continue to be addressed successfully.

While the RSA again won significant court decisions in benefits litigation in state court, the RSA legal staff spent a significant amount of time advising the various RSA divisions on compliance with state and federal laws and regulations. This will help avoid unnecessary litigation and ensure that our members get the benefits to which they are entitled while protecting against fraud and abuse. During the past year, the RSA legal staff has provided advice and guidance on numerous issues in the areas of benefits, both generally and with respect to specific individual accounts, administration, taxation, real estate, contracts, privacy rights, personnel, etc.

Legislation

The 2004 Regular Legislative Session ended on Monday, May 17, 2004. It was a long and contentious session, but ended on a very good note for the Retirement Systems of Alabama. The Governor began the session espousing "accountability" reform, and while he never defined this term, it became clear very quickly from the

legislation either introduced or supported by his Administration that it meant that teachers and state employees were the target. His accountability reform included taking away state holidays, longevity pay and a portion of annual and sick leave. As for retirement issues, his Administration wanted to end the DROP program and replace 25-year retirement with either a 30-year retirement or a Rule of 85. Additionally, he wanted to give both teachers and state employees a pay cut by immediately increasing their health insurance costs.

While a long and hard fought session, none of the Governor's bills were successful. Both the General Fund Budget and the Education Trust Fund Budget passed and the Teachers' Retirement Systems and the Employees' Retirement Systems were funded at their actuarial recommended rates. Likewise, PEEHIP was funded at the requested rate. As pertains to the ERS, several more constitutional amendments passed that if approved by the voters, would allow elected officials in that county to join the retirement system. These would include Blount County (Act 2004-231), Madison County (Act 2004-543), Clark County (Act 2004-393), Monroe County (Act 2004-240), and Limestone County (Act 2004-389). This would bring the number of counties participating to almost 50 and continues the trend of abolishing supernumerary positions on a county by county basis through the enactment of local constitutional amendments. Also, Act 2004-362 was passed which removed the one-year limitation period authorizing these public officials to purchase any prior service credit.

As concerns PEEHIP, Act 2004-539 was passed to establish the Alabama Prescription Cost Initiative Board to negotiate lower prescription costs for state programs.

Communications

In an effort to better inform and improve overall access to benefit information, fiscal year 2004 continued to be as active as the previous year for the RSA's Communications Division. The highlights show a wide array of avenues the RSA used to communicate with members, agencies and the general public.

- The RSA Web site continues to provide RSA members with valuable information regarding their retirement benefits.
- Retirement Preparation Seminars continued to be a great success with 1,278 members attending 20 ERS seminars and 1,015 attending 19 TRS seminars.
- Agency Seminars for payroll and personnel officers were also well attended in 2004 with 307 officers at 5 ERS seminars and 309 officers at 8 TRS and PEEHIP seminars.
- Individual Counseling Sessions were conducted around the state with 18 ERS counseling days for 226 members and 93 TRS counseling days for 1,268 members.
- Securing a Better Tomorrow with RSA-1. Enrollment packets provide easy-to-use information for members seeking to enhance their personal savings plans.
- ERS and TRS Member Handbooks were updated.

ASSET ALLOCATION (AS OF SEPTEMBER 30, 2004)

Asset allocation is a strategic long-term decision in the pension investment management process. The RSA is dedicated to preserving the sound financial position it has established over the years through a diversified investment program. The objective of the RSA is to allocate investments in the most effective way that reflects policy standards while maximizing returns.

TEACHERS' RETIREMENT SYSTEM

TRS BENEFITS ADMINISTRATION

The Teachers' Retirement System of Alabama (TRS) provides retirement allowances and other specified benefits for qualified persons employed by state-supported educational institutions.

- Established in 1941
- 1975 Employer rate for TRS hit all-time high of 15.5%
- 1977 TRS named best retirement system in the nation by the National Education Association
- 1986 TRS Board of Control reached its current level of 14 members
- 1987 TRS active membership exceeded 100,000 for the first time
- 1992 TRS retired membership reached 30,000

- 2000 Assets hit an all-time high of \$17.0 billion
- 2003 Taxpayer contributions to the TRS are only 9.4% of total TRS revenue
- As of September 30,2004, approximately 4,300 TRS members had entered DROP since its inception
- During this fiscal year, over 4,800 retirement applications were processed with the annual retirement payroll totaled at approximately \$990 million
- 2004 Total returns for the TRS were 10.71%

EMPLOYEES' RETIREMENT SYSTEM

ERS BENEFITS ADMINISTRATION

The Employees' Retirement System of Alabama (ERS) provides retirement allowances and other specified benefits for qualified state employees, State Police and on an elective basis, employees of cities, counties, towns and quasi-public organizations.

- Established in 1945
- 1945 Employees of cities, towns, counties and quasipublic agencies became eligible for membership in the ERS
- 1975 Retirement factor increased to current level of 2.0125% for regular employees and to 2.875% for State Police
- 1979 Employer rate for ERS hit an all-time high of 10.33%; Employer Rate for State Troopers hit all-time high of 21.02%
- 1987 25-year retirement established for state employees and State Troopers
- 1988 The first Cost-of-Living Adjustment (COLA) passed on to beneficiaries
- 1994 ERS retirees totaled over 20,000
- 2000 ERS Total assets hit all-time high of \$7.8 billion
- 2003 Taxpayers contributed only 12.3% of total revenue of the ERS
- 2004 DROP participants totaled 1,389 since its inception
- 2004 Total returns for the ERS were 10.06%

PEIRAF / DEDUCTABLE EMPLOYEE CONTRIBUTION PLAN

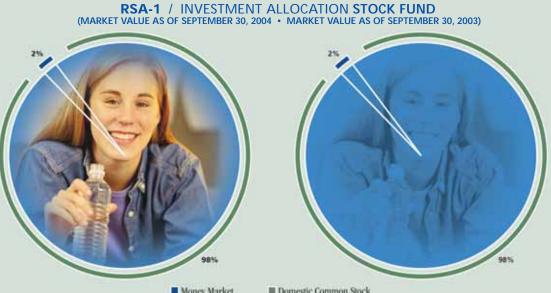

The Public Employees' Individual Retirement Account Fund (PEIRAF) was established to allow public employees to conveniently and economically receive the fullest benefits offered by the Economic Recovery Tax Act (ERTA) of 1981 as it relates to individual retirement accounts. PEIRAF has operated as a fixed income portfolio since its creation in 1982. Funds are invested in fixed income investments such as corporate bonds, U.S. agency obligations, government national mortgage association securities, and commercial paper.

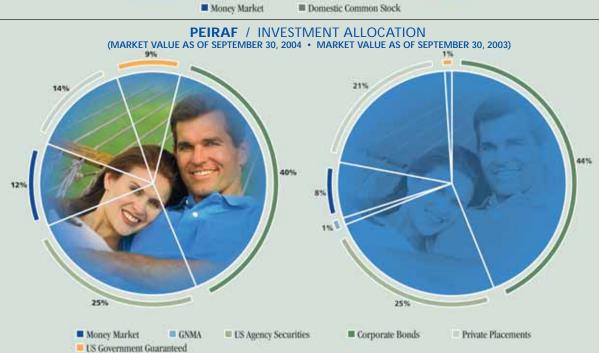

The Tax Reform Act of 1986 prohibited contributions to deductible voluntary employee contribution plans, such as PEIRAF, for years after 1986. Accordingly, the PEIRAF Board of Control discontinued receiving contributions to this plan after December 31, 1986. However, the PEIRAF continues to reinvest the interest earnings of existing PEIRAF member accounts.

(MARKET VALUE AS OF SEPTEMBER 30, 2004 • MARKET VALUE AS OF SEPTEMBER 30, 2003) Retirement Systems of Alabama

PUBLIC EDUCATION EMPLOYEES' HEALTH INSURANCE PLAN

PEEHIP

The RSA administers the Public Education Employees' Health Insurance Plan (PEEHIP) for approximately 98,000 active and 47,000 retired public education employees. PEEHIP covers K-12 active employees, one state university's employees, and all retirees from K through the university level. Over the years, PEEHIP has implemented various cost containment measures such as case management, bill audits, co-payments, deductibles, prescription drug utilization review, second pre-approved hospital admissions, second surgical opinion, discharge and wellness planning, health maintenance organizations and preferred provider organizations. In addition, many benefit changes have been made over the years to slow the growth in rising costs.

- Established in 1983. Southland National Corporation named administrator for supplemental coverages. Blue Cross and Blue Shield named administrator for hospital/medical plan.
- 1987. The first Health Maintenance Organization offered to PEEHIP members. Added \$75.00 co-pay for outpatient surgery and \$25.00 co-pay for Urgi-care clinic at an annual savings of \$20 million.
- 1988. Saved \$15 million annually by hiring the Alabama Quality Assurance Fund to perform Concurrent Utilization Review.
- 1990. Because of Precertification and Utilization review, hospital days per thousand decreased for a savings of \$20 million over 2 years.
- 1991. Eliminated coverage for Radial Keratonomy eye procedure saving \$2 million annually.
- 1992. Instituted benefit changes at an annual savings of over \$19 million.
- 1993. Family Medical Leave Act began.
- 1994. Implemented new drug formulary which resulted in annual savings of \$1.7 million.
- 1995. PEEHIP implemented HIPPA.
- 1996. PEEHIP Board lowered reserve level from 20% to 15%, reducing employer premium requirements by \$11 million annually.
- 1997. Reserve level lowered to 12%, reducing employer premium requirements by another \$7 million annually.
- 1998. Discontinued coverage for Viagra medication at an annual savings of \$4.5 million.
- 1999. Reduced reimbursement to participating pharmacies saving \$7 million annually.
- 2000. Increased out-of-pocket premium for active and retired members saving \$7 million annually. Added \$50 deductible per year for prescription drugs saving \$15.6 million annually.
- 2001. Drug formulary and dental and vision network created savings of \$1.0 million annually.
- 2002. Passage of generic drug bill increased generic utilization.
- 2003. Increased drug co-payments and added \$20 office visit co-pay for Medicare eligible retirees saving \$20 million annually. Required university systems to pay for their own retirees which saved \$25 million in the K-12 education budget.
- 2004. PEEHIP Board approved Express Scripts, Inc. to administer the prescription drug benefit.

INVESTMENTS

FIXED INCOME ACTIVITY

At the beginning of fiscal year 2004, the federal funds rate stood at a 45-year low of 1.00%. With the labor market offering little optimism, Greenspan and the Federal Reserve were fairly reluctant to raise short-term interest rates. Not only was the employment data discouraging, but "the risk of inflation becoming undesirably low" was still a lingering concern. The yield curve was frighteningly steep from a historical perspective, with the spread between the 2yr and 30yr Treasury hovering around 350 basis points. Expectations for a rate hike at this point had been pushed back into late spring of 2004, with the Fed poised to remain accommodative in their stance towards monetary policy.

Through the early part of the calendar year, interest rates were moving lockstep with reports regarding the economy. However, in March and April, the capital markets finally received what it had been long awaiting- favorable payroll numbers. Since this time, investors have continued to see evidence of a somewhat improving labor market and a reduction in the risk of deflation. The Fed accordingly has raised rates on three separate occasions throughout the end of the fiscal year. They have been reluctant to be aggressive in their decision making in hopes of ensuring a smooth and stable economic recovery. We believe policymakers will continue on this path for the foreseeable future.

During the latter half of the fiscal year, the yield curve has flattened substantially, with the 2-30yr spread compressing over 125 basis points. This is due to the actions taken by the Fed in terms of monetary policy, coupled with a relatively stable period of inflation. Even though, oil prices have risen considerably over the last couple of months, it has not been perceived as a major hiccup in the long term. We feel that yield curve still has ample room to flatten over the immediate term given the economic backdrop.

Believe it or not, high yield securities outperformed corporates and treasuries for the second year in a row. The basic premise in explaining this phenomenon is investors' eagerness to grab yield in a low interest rate environment. Another explanation is the improvement in overall credit quality as default rates have been nearly cut in half since the beginning of the year. However, a secular development has also evolved, where issuers are encouraged to accept a lower level of credit quality in determining their optimal capital structure. Issuance from investment grade firms this year has been rather lackluster compared to high yield companies, which continued to refinance outstanding debt at lower yield levels. A structural shift in the bond market that has also taken place over the past couple of years is the growth in participation of foreign investors. Offshore investors currently own nearly 25% of US corporate holdings, when one accounts for the inclusion of hedge funds. Going forward, this shift will make the demand for fixed securities more important and more difficult to predict.

In fiscal year 2004, the RSA purchased approximately \$1.9 billion in additional securities for the fixed income portfolio. As of September 30, 2004, the RSA's fixed income portfolio had a market value of \$10.3 billion, of which 13% is in money market securities. For the fiscal year, the total annual returns for the fixed income portfolios, including alternative investments were 5.59% for the TRS and 4.86% for the ERS and 6.74% for the JRF versus 3.82% for the Salomon Brothers Broad Investment Grade Index (SBBIG). The five-year annualized returns were 6.35% for the TRS and 6.07% for the ERS and 4.45% for the JRF, versus 7.57% for the SBBIG Index. The ten-year annualized returns were 7.45% for the TRS and 7.34% for the ERS and 6.67% for the JRF versus 7.67% for the SBBIG Index.

MATURITY STRUCTURE

The management of maturities for the bond portfolio is an integral part of the RSA's objective of providing a stable cashflow to meet retirement benefit needs. The RSA has historically structured its purchases in longer-term securities with intermediate call protection or average lives in order to meet its retirement obligations.

QUALITY EVALUATION

The RSA continued its long-standing policy of investing in high quality fixed income products. Bond ratings, however, provide only a starting point in the evaluation of the relative investment qualities of a bond. Times have changed dramatically over the past decade and few companies today have a rating of AAA to A. Many companies are now rated BAA or lower.

QUALITY DISTRIBUTION (In %)

		TRS			ERS

EQUITY STRATEGY

After posting an extremely strong first quarter coming out of the gate to the fiscal year, the equity markets basically treaded water for the remainder of the year. Following the huge fiscal and monetary stimuli in place throughout 2003, the first quarter posted returns better than 12% for all major market averages. Going into calendar year 2004, the headwinds started building which kept the market range bound through the end of the fiscal year. To begin, the chatter started to build about the Federal Reserve finally going the other way with interest rates. Finally in late June, the Fed began to ratchet up short term rates, and we closed out the fiscal year with the Fed Funds rate moving from 1% up to 1.75%.

Besides the fight against higher short term interest rates, earnings momentum also began to slow. After posting astounding numbers throughout 2003, year-over-year comparisons became very tough in the first quarter. While earnings growth remained strong throughout 2004, analyst expectations became too lofty, and the market was fighting repeated downward earnings estimate revisions in the June and September quarters. Another factor that pressured the equity markets was the return of inflation. The biggest headliner here was obviously oil prices. Crude oil opened under \$30 at the beginning of the calendar year and closed out in September at a new all time high of nearly \$50. Inflation pressures were not just on the energy side either. The Goldman Sachs Commodity Price Index, which takes a snapshot of 24 commodities, was up over 30% for the first three quarters of the calendar year.

Other factors which were a drag on the equity market during the calendar year were the continued fighting in the Middle East and the battle for the White House. Besides all the negative press they generated, the market was very uncertain as to how to access the risk regarding these issues. On top of that, the monthly employment reports were very volatile throughout the year. After posting strong numbers early in the year, the monthly jobs numbers became very weak for a period of time. This begged the question of how sustainable the recovery would be.

In review, the RSA equity allocation began the year at roughly 49%, and closed out fiscal 2004 at roughly 54% of assets. Some new money was added to the active funds, as well as to the international portfolio. Domestic equities account for nearly 43% of the fund, and international equities are now over 11% of the total. Much like 2003, the smaller the market capitalization, the better the performance. The S & P 500 index was up 13.87%, the S & P 400 Midcap index was up 17.55%, and the S & P Smallcap 600 index was up 24.58%. The MSCI EAFE index was up 22.08%, again outperforming the broad domestic equity indices.

For the year, the RSA domestic equity portfolios increased 14.69%, 14.56%, and 14.55% for the TRS, ERS, and JRF funds, respectively. International equity returns fared better, posting 22.59% and 22.43% for TRS and ERS, respectively. The combined total return for the overall equity portfolios were 16.19%, 16.04%, and 14.55% for the TRS, ERS, and JRF, respectively.
