

How to Use the Formulary

The Formulary is a list of medications available to PEEHIP members under their pharmacy benefit. All drugs are listed by their generic names and most common proprietary (branded) name. The Formulary may be accessed by using the index, either by generic or proprietary name and by therapeutic drug category. In situations where an FDA approved generic equivalent is available, brand names are listed for reference purposes only, and do not denote coverage for the brand, unless specifically noted.

All drugs are listed in each category in alphabetical order by generic name. Where an FDA approved generic is available for the listed generic name, the generic name is *italicized*.

For certain agents within the Formulary, a recommended prescribing guideline may apply. These are denoted throughout the document using the following symbols:

Symbol	Guideline	Description
ACA	Affordable Care Act	Preventative medications available to members at no cost when prescribed within ACA guidelines
EUA	Emergency Use Authorization	Products to be used in an emergency to diagnose, treat, or prevent serious or life-threatening diseases or conditions
MO	Maintenance Medication	First fill limited to 30 day supply; subsequent fill can be for 90 day supply when prescription is written as 90 day Rx
OTC	Over-The-Counter	Medications that can be purchased without a prescription.
PA	Prior Authorization	Requires specific physician request process
QL	Quantity Limit	Coverage may be limited to specific quantities per prescription and/or time period
ST	Step Therapy	Coverage may depend on previous use of another drug

The Formulary applies only to outpatient drugs provided to members, and does not apply to medications used in inpatient settings. If a member has any specific questions regarding their coverage, they should contact Express Scripts at (800) 363-9389.

The following topics may apply:

1. Generic Substitution

When available, FDA approved generic drugs are to be used in all situations, regardless of the brand name indicated. The generic names are *italicized* in the formulary listing wherever an FDA approved generic drug product is available. Greater economy is realized through the use of generic equivalents. This policy is not meant to preclude or supplant any state statutes that may exist. All drugs that are or become available generically are subject to review by Express Scripts Pharmacy and Therapeutics Committee.

This list is reviewed and updated periodically based on the clinical literature and pharmacokinetic characteristics of currently available versions of these drug products.

If a member or physician requests a covered brand name product in lieu of an approved generic, the member, based upon their coverage, will typically be required to pay the difference in cost between the brand and the generic.

If a physician determines that there is a documented medical need for the covered brand equivalent, the member should contact Express Scripts for details on submitting a copay exception request at (800) 363-9389.

2. Tier Benefit Design

The Formulary may be applied to a tier benefit design, where the member shares the cost of prescription drug therapy based on the drug's tier and copayment or coinsurance. In most instances, generically available drugs will be covered in a separate lower tier (low copay), preferred branded drugs listed on the Formulary will be covered on Tier 2, non-preferred brand drugs will be covered on Tier 3, Specialty generic drugs will be covered on Tier 4, Specialty preferred brand drug will be covered on Tier 5, and Specialty non-preferred brand medications will be covered on Tier 6.

Tier Definitions:

- Tier 1: Generic medications
- Tier 2: Preferred brand medications (formulary agents)
- Tier 3: Non-preferred medications (non-formulary agents)
- Tier 4: Specialty generic medications
- Tier 5: Specialty preferred brand medications
- Tier 6: Specialty non-preferred brand medications

3. Medication Request Process

Depending upon plan benefit design, a medication request process may apply as follows:

A. Coverage Exceptions

Drugs that are listed in the Formulary with associated Prior Authorization (PA) require evaluation. Each request will be reviewed on an individual patient need basis. If the request does not meet the established guidelines the request will not be approved and alternative therapy may be recommended.

Non-approved requests may be appealed. The prescriber must provide information to support the appeal on the basis of medical necessity. Prior Authorization is generally not available for drugs that are specifically excluded by benefit design.

4. General Exclusions

- A. Over the Counter (OTC) medications or their equivalents, unless the individual's pharmacy benefit offers coverage of OTC medications.
- B. Any drug products used for cosmetic purposes.
- C. Anti-Obesity Preparations, Weight Loss Medications
- D. Experimental drug products or any drug product used in an experimental manner.
- E. Replacement of lost or stolen medication.
- F. Non self-administered injectable drug products unless otherwise specified in the Formulary listing.
- G. Foreign sourced drugs or drugs not approved by the United States Food & Drug Administration, except in certain cases of drug shortage, when allowed under the individual's pharmacy benefit.
- H. Drugs specifically used for the treatment of erectile dysfunction

This Guidebook includes information accurate at the time it was collected from Express Scripts' systems and may not reflect actual benefit setup details at later times.

Table of Contents

ANTI - INFECTIVES	3
ANTINEOPLASTIC & IMMUNOSUPPRESSANT DRUGS	9
AUTONOMIC & CNS DRUGS, NEUROLOGY & PSYCH.....	14
CARDIOVASCULAR, HYPERTENSION & LIPIDS.....	24

<i>neomycin oral tablet</i>	1	
<i>nitazoxanide oral tablet</i>	1	QL
<i>paromomycin oral capsule</i>	1	
<i>pentamidine inhalation recon soln</i>	1	QL; MO
<i>praziquantel oral tablet</i>	1	PA; QL
PRIFTIN ORAL TABLET	2	
<i>primaquine oral tablet</i>	1	QL
<i>pyrazinamide oral tablet</i>	1	
<i>pyrimethamine oral tablet</i>	1	PA; QL
<i>quinine sulfate oral capsule</i>	1	QL
<i>rifabutin oral capsule</i>	1	
<i>rifampin oral capsule</i>	1	

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

Drug Name	Drug Tier	Requirements / Limits
SIRTURO ORAL TABLET	2	PA; QL
<i>tinidazole oral tablet</i>	1	QL
<i>tobramycin in 0.225 % nacl inhalation solution for nebulization</i>	1	PA; QL; MO
XIFAXAN ORAL TABLET 550 MG	2	PA; QL; MO
PENICILLINS		
<i>amoxicillin oral capsule</i>	1	
<i>amoxicillin oral suspension for reconstitution</i>	1	
<i>amoxicillin oral tablet</i>	1	
<i>amoxicillin oral tablet, chewable 125 mg, 250 mg</i>	1	
<i>amoxicillin-pot clavulanate oral suspension for reconstitution</i>	1	
<i>amoxicillin-pot clavulanate oral tablet</i>	1	
<i>amoxicillin-pot clavulanate oral tablet extended release 12 hr</i>	1	
<i>amoxicillin-pot clavulanate oral tablet, chewable</i>	1	
<i>ampicillin oral capsule 500 mg</i>	1	

Drug Name	Drug Tier	Requirements / Limits
AUGMENTIN ORAL SUSPENSION FOR RECONSTITUTION 125-31.25 MG/5 ML	2	PA
<i>dicloxacillin oral capsule</i>	1	
<i>penicillin v potassium oral reconstituted soln</i>	1	
<i>penicillin v potassium oral tablet</i>	1	
QUINOLONES		
<i>ciprofloxacin hcl oral tablet 250 mg, 500 mg, 750 mg</i>	1	
<i>ciprofloxacin oral suspension, microcapsule reconstituted</i>	1	
<i>levofloxacin oral solution</i>	1	
<i>levofloxacin oral tablet</i>	1	
<i>moxifloxacin oral tablet</i>	1	
<i>ofloxacin oral tablet 300 mg, 400 mg</i>	1	
SULFA'S & RELATED AGENTS		
<i>sulfadiazine oral tablet</i>	1	
<i>sulfamethoxazole-trimethoprim oral suspension</i>	1	
<i>sulfamethoxazole-trimethoprim oral tablet</i>	1	
<i>sulfatrim oral suspension</i>	1	

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

Drug Name	Drug Tier	Requirements / Limits
TETRACYCLINES		
<i>avidoxy oral tablet</i>	1	
<i>demeclocycline oral tablet</i>	1	
<i>doxycycline hyclate oral capsule</i>	1	
<i>doxycycline hyclate oral tablet 100 mg, 20 mg</i>	1	
<i>doxycycline monohydrate oral capsule 100 mg, 50 mg</i>	1	
<i>doxycycline monohydrate oral capsule,ir - delay rel,biphase</i>	1	
<i>doxycycline monohydrate oral suspension for reconstitution</i>	1	
<i>doxycycline monohydrate oral tablet</i>	1	
<i>minocycline oral capsule</i>	1	
<i>mondoxyne nl oral capsule 100 mg</i>	1	
<i>tetracycline oral capsule</i>	1	
URINARY TRACT AGENTS		
<i>methenamine hippurate oral tablet</i>	1	
<i>methenamine mandelate oral tablet</i>	1	
<i>nitrofurantoin macrocrystal oral capsule</i>	1	QL

Drug Name	Drug Tier	Requirements / Limits
<i>nitrofurantoin monohyd/m-cryst oral capsule</i>	1	QL
<i>nitrofurantoin oral suspension 25 mg/5 ml</i>	1	
<i>trimethoprim oral tablet</i>	1	
VANCOMYCIN		
<i>vancomycin oral capsule</i>	1	ST; QL
ANTINEOPLASTIC & IMMUNOSUPPRESSANT DRUGS		
ADJUNCTIVE AGENTS		
<i>leucovorin calcium oral tablet</i>	1	
MESNEX ORAL TABLET	2	
ANTINEOPLASTIC & IMMUNOSUPPRESSANT DRUGS		
<i>abiraterone oral tablet 250 mg</i>	1	QL; MO
