

Employees' Retirement System of Alabama

Actuarial Valuation Report

Prepared as of September 30, 2024

July 9, 2025

Board of Control
Employees' Retirement System of Alabama
Montgomery, Alabama

Members of the Board:

In this report are submitted the results of the annual actuarial valuation of the assets and liabilities of the Employees' Retirement System of Alabama, prepared as of September 30, 2024 in accordance with Section 36-27-23(p) of the act governing the operation of the System.

The purpose of this report is to provide a summary of the funded status of the System as of September 30, 2024 and to recommend rates of State contribution.

The findings in this report are based on data and other information through September 30, 2024. The valuation was based upon information furnished by RSA Staff, concerning RSA benefits, financial transactions, plan provisions and active members, terminated members, retirees and beneficiaries. We checked for internal reasonability and year-to-year consistency but did not audit the data. The valuation results depend on the integrity of the data. If any of the information is inaccurate or incomplete, our results may be different and our calculations may need to be revised. The complete cooperation of the RSA staff in furnishing materials requested is hereby acknowledged with appreciation.

The valuation reflects an additional 2% salary increase granted to State employees and State police officers effective October 1, 2024 in accordance with Act 2024-284.

On the basis of the valuation, it is recommended that the employer make contributions to the System for State employees (members other than State Police) at the rate of 17.15% of payroll for Tier I members and 16.85% for Tier II members for the fiscal year ending September 30, 2027. It is also recommended that the employer make contributions to the System for State Police at the rate of 58.82% of payroll for Tier I members and 56.41% for Tier II members for the fiscal year ending September 30, 2027. This represents a decrease in the contribution rates from last year's valuation.

The contribution rates for local employers for the fiscal year beginning October 1, 2026 will be submitted in a separate report and will include the impact of the employer-elected changes through September 30, 2024, and the impact of any employer elections of Act 2022-348 approved by the Board through September 30, 2024.

Effective with the September 30, 2021 valuation, the Board approved a phase in of the increase in the required contributions due to the assumption changes made in the most recent experience investigation over a period not to exceed five years with a floor equal to the 2023 fiscal year employer contribution rates. The 2027 fiscal year employer rates in this September 30, 2024 actuarial valuation reflect the fourth of five phase-in periods of 0.34% of payroll for Tier I members and 0.28% of payroll for Tier II members for State employees and 0.59% of payroll for Tier I members and 0.47% of payroll for Tier II members for State Police. The fiscal year 2028 employer rates in the upcoming September 30, 2025 actuarial valuation will have the final phase-in adjustment.

The promised benefits of the System are included in the actuarially calculated contribution rates which are developed using the Entry Age Normal cost method. Five-year smoothed market value of assets is used for actuarial valuation purposes. Gains and losses are reflected in the unfunded actuarial accrued liability that is being amortized by regular annual contributions as a level percentage of payroll, on the assumption that payroll will increase by 2.75% annually. The assumptions recommended by the actuary and adopted by the Board are in the aggregate reasonably related to the experience under the System and to reasonable expectations of anticipated experience under the System. The assumptions and methods used for funding purposes meet the parameters outlined in the Board's funding policy. We continue to estimate that the employer contribution will begin to pay down the UAAL during FYE 2027 for State employees; the UAAL for State Police began declining in FYE 2022 although it is higher this valuation due to an increase in liabilities from payroll increases more than expected.

In this report, we provide the following information and supporting schedules in the Actuarial and Statistical Sections of the Annual Comprehensive Financial Report:

- Summary of Actuarial Assumptions and Methods
- Actuarial Cost Method
- Summary of Plan Provisions as Interpreted for Valuation Purposes
- Schedule of Funding Progress
- Solvency Test
- Schedule of Active Member Valuation Data

We also provide the following schedules for the Annual Comprehensive Financial Report in a separate supplemental report:

- Analysis of Actuarial Gains and Losses
- Schedule of Retirants and Beneficiaries Added and Removed from Rolls
- Retired Members by Type of Benefit as of September 30, 2024
- Ten-Year History of Average Monthly Benefit Payments as of September 30

The necessary GASB Statements No. 67 and 68 disclosure information is provided in separate supplemental reports. However, some accounting information is provided for informational purposes only.

This is to certify that Larry Langer and Ed Koebel are members of the American Academy of Actuaries and have experience in performing valuations for public retirement systems, that the valuation was prepared in accordance with principles of practice prescribed by the Actuarial Standards Board, and that the actuarial calculations were performed by qualified actuaries in accordance with accepted actuarial procedures, based on the current provisions of the retirement system and on actuarial assumptions that are internally consistent and reasonably based on the actual experience of the System.

In order to prepare the results in this report, we have utilized actuarial models that were developed to measure liabilities and develop actuarial costs. These models include tools that we have produced and tested, along with commercially available valuation software that we have reviewed to confirm the appropriateness and accuracy of the output. In utilizing these models, we develop and use input parameters and assumptions about future contingent events along with recognized actuarial approaches to develop the needed results.

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

The actuarial computations presented in this report are for purposes of determining the recommended funding amount for the System and appropriate for the determination of the employer contribution rates herein. The results contained herein are not appropriate for the settlement of liabilities. Use of these computations for purposes other than meeting these requirements may not be appropriate.

In our opinion the System is operating on an actuarially sound basis. Assuming that contributions to the System are made by the employer from year to year in the future at the rates recommended on the basis of the successive actuarial valuations, the continued sufficiency of the retirement fund to provide the benefits called for under the System may be safely anticipated.

The Table of Contents, which immediately follows, outlines the material contained in the report.

Respectfully submitted,

Larry Langer, ASA, EA, FCA, MAAA
Principal and Consulting Actuary

Edward J. Koebel, EA, FCA, MAAA
Chief Executive Officer

Jennifer Johnson
Managing Director

Funded Ratio based on MVA	68.2 %	60.9 %

*Includes post-DROP members in suspended status who are also active with a second retirement account.

SECTION I - SUMMARY OF PRINCIPAL RESULTS

1. Comments on the valuation results as of September 30, 2024 are given in Section IV and further discussion of the contribution levels is set out in Section V. The valuation reflects an additional 2% salary increase granted to State employees and State police officers effective October 1, 2024 in accordance with Act 2024-284.
2. Schedule B of this report shows the development of the actuarial value of assets. The actuarial value return on assets is estimated at 8.8% for the fiscal year ending September 30, 2024, which is compared to the current expected return of 7.45%.
3. Schedule D of this report outlines the full set of actuarial assumptions and methods used in the current valuation. There have been no changes since the previous valuation.
4. The Board Funding Policy is shown in Schedule F.
5. Provisions of the System, as summarized in Schedule H, were taken into account in the current valuation. There have been no changes since the previous valuation.
6. The results shown in this report reflect all local employer elections approved by the Board through October 1, 2024. The contribution rates for local employers for the fiscal year beginning October 1, 2026 will be submitted in a separate report.
7. The Summary of Principal Results shows the funded ratio and UAAL (unfunded actuarial accrued liability) on both asset basis: the AVA (actuarial value of assets) and the MVA (market value of assets). The funded ratio is the ratio of the assets to the actuarial accrued liability. The UAAL is the AAL (actuarial accrued liability) less the assets. The funded ratio is an indication of progress in funding the promised benefits. The AVA basis is used to determine employer contribution rates and is the traditional measurement of the funded ratio and UAAL. References to funded ratio and UAAL throughout this report are the traditional amounts. Since the funded ratio is less than 100% and the UAAL is greater than zero, there is a need for additional contributions towards payment of the UAAL. In addition, this funded ratio does not have any relationship to measuring sufficiency if the plan had to settle its liabilities.

SECTION II - MEMBERSHIP DATA

1. Data regarding the membership of the System for use as a basis of the valuation were furnished by the Retirement System office. The following table shows the number of active members and their annual compensation as of September 30, 2024 on the basis of which the valuation was prepared.

TABLE 1
THE NUMBER AND ANNUAL COMPENSATION
OF ACTIVE MEMBERS AS OF SEPTEMBER 30, 2024

Group	Number	Compensation
State Employees		
Tier 1, FLC	1,470	\$ 124,710,380
Tier 1, Non-FLC	11,795	870,016,492
Tier 2, FLC	948	65,913,794
Tier 2, Non-FLC	13,549	674,978,445
Post-DROP Members Still in Active Service	76	7,781,476
Total	27,838	\$ 1,743,400,587
State Police		
Tier 1, Group 1	507	\$ 46,755,706
Tier 2, Group 1	258	18,205,184
Post-DROP Members Still in Active Service	-	-
Total	765	\$ 64,960,890
Local Employees		
Tier 1, FLC	6,283	\$ 476,977,239
Tier 1, Non-FLC	17,852	1,116,892,816
Tier 2, FLC	7,230	407,060,306
Tier 2, Non-FLC	28,914	1,264,279,745
Post-DROP Members Still in Active Service	31	3,373,735
Total	60,310	\$ 3,268,583,841
All Groups		
Tier 1	37,907	\$ 2,635,352,633
Tier 2	50,899	2,430,437,474
Post-DROP Members Still in Active Service	107	11,155,211
Total	88,913	\$ 5,076,945,318

The table reflects the active membership for whom complete valuation data were submitted. The results of the valuation include an estimated liability for an additional 207 vested inactive members where complete data was not available (with liabilities equal to contribution balances multiplied by a factor of 3), contribution balances for an additional 28,879 non-vested inactive members who have contributed in the last 5 years, and 26,771 non-vested inactive members who have not contributed for more than 5 years.

SECTION II - MEMBERSHIP DATA

2. The following table shows a six-year history of active member valuation data.

TABLE 2
SCHEDULE OF ACTIVE MEMBER VALUATION DATA

Number	25,307	1,006	32,508	58,821
Annual Allowances	\$612,478,873	\$ 51,120,154	\$747,315,149	\$1,410,914,176

¹ In addition, there are 1,248 vested inactive members with estimated deferred annual allowances totaling \$19,298,169.

² In addition, there are 23 vested inactive members with estimated deferred annual allowances totaling \$423,667.

³ In addition, there are 2,425 vested inactive members with estimated deferred annual allowances totaling \$35,409,402.

⁴ Includes post-DROP members in suspended status who are also active with a second retirement account.

4. Tables in Schedule I show the distribution by age and service of the number and average annual compensation of active members included in the valuation. In addition, tables in Schedule I show the distribution by age and benefit type of the number, annual benefits, and average annual benefits of retired members included in the valuation.

SECTION III - ASSETS

1. The current retirement law provides for the maintenance of five funds for the purpose of recording the fiscal transactions of the System, namely, the Annuity Savings Fund, the Pension Accumulation Fund, the Deferred Retirement Option Plan Fund, the Pre-Retirement Death Benefit Fund, and the Expense Fund.

- (a) ***Annuity Savings Fund***

The Annuity Savings Fund is the fund to which are credited all contributions made by members together with regular interest thereon. When a member retires or when a survivor allowance becomes payable, the amount of the member's accumulated contributions are transferred from the Annuity Savings Fund to the Pension Accumulation Fund. On September 30, 2024, the market value of assets credited to this Fund amounted to \$3,762,056,094 which represent the contributions of members to this date.

- (b) ***Pension Accumulation Fund***

The Pension Accumulation Fund is the fund to which are credited all contributions made by the employers, except those contributions made to the Pre-Retirement Death Benefit Fund which was created October 1, 1983. When a member retires or when a survivor allowance becomes payable, the pension is paid from this fund. The market value of assets credited to this fund amounted to \$12,754,505,982 on September 30, 2024.

- (c) ***DROP Fund***

The DROP Fund is the fund to which are credited deferred retirement benefits on behalf of members who elect to participate in the DROP, together with regular interest thereon. In addition, member contributions while participating in the DROP, together with regular interest therein, are credited to the Fund. At the end of the DROP deferral period, the member receives the amount of the deferred retirement benefits and contributions plus interest in the member's DROP account. The DROP is closed to new participants as of June 1, 2011. On September 30, 2024, the market value of assets credited to this Fund amounted to \$34,732,862.

- (d) ***Pre-Retirement Death Benefit Fund***

The Pre-Retirement Death Benefit Fund is the fund to which are credited contributions made by the employer for the special pre-retirement death benefit which became effective October 1, 1983. On September 30, 2024, the market value of assets credited to this fund amounted to \$13,110,109. These assets are not included in the valuation and the liabilities associated with these death benefits are not included in the valuation.

SECTION III - ASSETS

(e) *Expense Fund*

The Expense Fund is the fund from which the expenses of the administration of the Retirement System are paid. Any amounts credited to the accounts of members withdrawing before retirement and not returnable under the provisions of Code Section 36-27-16(c) are credited to the Expense Fund. Additional contributions required to meet the expenses of the Retirement System made by the employer are also credited to this fund. On September 30, 2024, the book value of assets credited to this fund amounted to \$12,168,071. These assets are not included in the valuation.

- As of September 30, 2024 the total market value of assets, exclusive of the Pre-Retirement Death Benefit Fund and the Expense Fund, amounted to \$16,551,294,938 as shown in the following table.

TABLE 4A
MARKET VALUE OF ASSETS BY FUND
AS OF SEPTEMBER 30, 2024

Fund	Market Value of Assets
Annuity Savings Fund	\$ 3,762,056,094
Pension Accumulation Fund	12,754,505,982
DROP Fund	<u>34,732,862</u>
Total Market Value of Assets	\$ 16,551,294,938

- The five-year market related actuarial value of assets as of September 30, 2024 was \$15,460,688,562. The following table shows the actuarial value of assets used for the current valuation allocated among State Employees, State Police and Local Employees.

TABLE 4B
COMPARISON OF ACTUARIAL VALUE OF ASSETS
AT SEPTEMBER 30, 2024 AND SEPTEMBER 30, 2023

Group	September 30, 2024 Actuarial Value	September 30, 2023 Actuarial Value
State Employees	\$ 5,397,947,927	\$ 5,191,170,764
State Police	413,787,298	391,154,352
Local Employees	<u>9,648,953,337</u>	<u>9,070,856,172</u>
Total Actuarial Value of Assets	\$ 15,460,688,562	\$ 14,653,181,288

SECTION III - ASSETS

4. Schedule C shows the receipts and disbursements of the System for the year preceding the valuation date and a reconciliation of the fund balances at market value.
5. The following table shows the history of the expected and actual rates of investment returns.

TABLE 4C
HISTORICAL EXPECTED AND ACTUAL RETURNS

FYE September 30,	Expected Return	Market Return	Actuarial Return
2024	7.450 %	21.2 %	8.8 %
2023	7.450	12.9	4.7
2022	7.450	(13.0)	5.3
2021	7.700	22.2	10.0

SECTION IV - COMMENTS ON VALUATION

1. Schedule A of this report contains the valuation balance sheets which show the present and prospective assets and liabilities of the System as of September 30, 2024. Separate balance sheets are shown for each employee group as well as in total for all groups.
2. The total valuation balance sheet shows that the System has total prospective liabilities of \$27,889,509,137. Of this amount, \$13,109,667,276 is for the prospective benefits payable on account of present retired members, beneficiaries of deceased members, and DROP participants, \$473,538,837 is for the prospective benefits payable on account of present inactive members and \$14,306,303,024 is for the prospective benefits payable on account of present active members. Against these liabilities the System has total actuarial value of assets of \$15,460,688,562 as of September 30, 2024. The difference of \$12,428,820,575 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future. Of this amount, \$2,437,367,647 is the present value of future contributions expected to be made by members to the Annuity Savings Fund, and the balance of \$9,991,452,928 represents the present value of future contributions payable by the employers.
3. The employers' contributions to the System consist of normal contributions and unfunded actuarial accrued liability (UAAL) contributions. Prospective employer normal contributions have a present value of \$1,175,174,901. When this amount is subtracted from \$9,991,452,928, which is the present value of the total future contributions to be made by the employers, there remains \$8,816,278,027 as the amount of future UAAL contributions.
4. The funding policy adopted by the Board, as shown in Schedule F, provides that the initial total UAAL established as of September 30, 2021 shall be amortized over a closed 27-year period for state employees and a closed 21-year period for state police. Each subsequent valuation may produce a New Incremental UAAL consisting of all benefit changes that have occurred since the previous valuation which shall be amortized over a closed 15-year period. Each valuation beginning with the September 30, 2028 valuation for State employees, and the September 30, 2022 valuation for State Police will produce a New Incremental UAAL consisting of all assumption and method changes and experience gains and/or losses that have occurred since the previous valuation and will be amortized over closed 20- year periods. All gains and losses occurring after the establishment of the initial total UAAL and before those dates, except for those due to benefit improvements, shall be included in the remaining initial total UAAL each year and amortized over the remaining closed period.
5. The total UAAL rate payable by the State is 15.33% of payroll for State employees and 47.35% of payroll for State Police determined in accordance with the Board's funding policy and the phase-in methodology adopted by the Board. The UAAL contribution rate has been calculated on the assumption that each incremental component of accrued liability contribution will increase by 2.75% each year. Schedule G of this report shows the amortization schedules for all bases as of September 30, 2024.

SECTION IV - COMMENTS ON VALUATION

6. The following table shows the components of the total UAAL and the derivation of the accrued liability contribution rate in accordance with the funding policy for State employees and State Police:

TABLE 5
TOTAL UAAL AND UAAL CONTRIBUTION RATE
STATE EMPLOYEES

Base	Initial Amounts			Amounts as of September 30, 2024		
	UAAL	Date	Yrs	UAAL	Yrs	Payment
Initial UAAL	\$ 3,235,144,946	9/30/2021	27	\$ 4,060,464,549	24	\$ 289,958,159
Benefit Improvements	10,513,204	9/30/2021	15	9,691,548	12	1,096,704
Benefit Improvements*	(2,657,103)	9/30/2023	15	(2,599,542)	14	(262,542)
Total				\$ 4,067,556,555		\$ 290,792,321
Total Amortization Payment Adjusted for Timing						280,349,309

UAAL Contribution Rate						15.50%
UAAL Contribution Rate Phase-in Methodology***						15.33%

STATE POLICE

Base	Initial Amounts			Amounts as of September 30, 2024		
	UAAL	Date	Yrs	UAAL	Yrs	Payment
Initial UAAL	\$ 309,010,437	9/30/2021	21	\$ 304,317,117	18	\$ 25,866,604
New Incremental UAAL	27,489,656	9/30/2022	20	27,144,479	18	2,307,250
New Incremental UAAL	17,739,021	9/30/2023	20	17,650,344	19	1,449,016
New Incremental UAAL	24,222,971	9/30/2024	20	24,222,971	20	1,925,702
Benefit Improvements	264,104	9/30/2021	15	243,464	12	27,551
Benefit Improvements*	21,590,346	9/30/2023	15	21,122,631	14	2,133,292
Total				\$ 394,701,006		\$ 33,709,415
Total Amortization Payment Adjusted for Timing						32,498,833
Total Estimated Payroll**						68,327,718
UAAL Contribution Rate						47.56%
UAAL Contribution Rate Phase-in Methodology***						47.35%

* Reflects the provisions of Act 2023-73

** Estimated payroll based on applying the assumed salary scale to current salaries.

*** Phase in impact of assumption and method changes on employer contribution rates over a period not to exceed five years and maintain floor of FYE 2023 contribution rates.

SECTION IV - COMMENTS ON VALUATION

7. The Pre-Retirement Death Benefit Program was established October 1, 1983 under Act No. 83-616. The liabilities and assets associated with the pre-retirement death benefit are not included in the annual actuarial valuation of the System; however, the sufficiency of the Fund to provide the promised benefits is reviewed annually. The contribution requirements are determined every five years during our experience investigation. For all employers, an additional contribution of 0.07% of payroll will be required to meet the cost of the pre-retirement death benefit program this year.
8. For all employers, an additional contribution of 0.30% is required to cover the expenses of administering the System.
9. In our opinion, the current experience, assumptions, and methods adopted by the Board support the funding policy and generally accepted and emerging practice. Assuming that required contributions continue to be made each year, the funding of the System and the objectives of the Funding Policy will continue to remain on track.

SECTION V - CONTRIBUTIONS PAYABLE BY EMPLOYER

1. The retirement act provides that the Board of Control shall certify to the Chief Fiscal Officer of each employer the rates of contribution required to be paid by the employer.
2. On the basis of the actuarial valuation prepared as of September 30, 2024 it is recommended that the State make contributions at the following rates for the fiscal year beginning October 1, 2026:

TABLE 6

ACTUARIALLY DETERMINED EMPLOYER CONTRIBUTION RATES

Component	Employer Contribution Rates for FYE September 30, 2027			
	State Employees		State Police	
	Tier I	Tier II	Tier I	Tier II
Total Normal Cost	9.08 %	7.24 %	21.10 %	18.69 %
Member Contributions*	<u>(7.63)</u>	<u>(6.09)</u>	<u>(10.00)</u>	<u>(10.00)</u>
Employer Normal Cost	1.45 %	1.15 %	11.10 %	8.69 %
Unfunded Actuarial Accrued Liability	15.33	15.33	47.35	47.35
Death Benefit	0.07	0.07	0.07	0.07
Administration	<u>0.30</u>	<u>0.30</u>	<u>0.30</u>	<u>0.30</u>
Total Employer Contribution Rate**	17.15 %	16.85 %	58.82 %	56.41 %

* Tier I members contribute 7.50% (8.50% for FLC members) and Tier II members contribute 6.00% (7.00% for FLC members). All Police members contribute 10.00%.

** Contribution rates reflect a phase-in of the cost of assumption changes over a period not to exceed five years with a floor equal to the 2023 fiscal year contribution rates.

3. The total employer contribution rates without the phase-in would have been 17.49% of compensation for State Employees Tier I, 17.13% of compensation for State Employees Tier II, 59.41% of compensation for State Police Tier I, and 56.87% of compensation for State Police Tier II. Phasing in the increase in the required contributions over a period of time does slow the funding progress slightly.
4. Contribution rates for Local Employers will be submitted in a separate report. The rates for the fiscal year beginning October 1, 2026 were determined as of September 30, 2024, and will reflect any elections made pursuant to Act 2011-676, and Act 2022-348 as of September 30, 2024.

SECTION VI - ANALYSIS OF FINANCIAL EXPERIENCE

The calculation of the System's liabilities and actuarial value of assets requires the use of several assumptions concerning the future experience of the System and its members. In each annual actuarial valuation, the experience of the System is compared with what was expected based on the actuarial assumptions. The differences between the actual and expected experience are called actuarial gains or losses depending on whether the difference increases or decreases the UAAL.

For State employees, the UAAL increased approximately \$156 million; for State Police, the UAAL increased approximately \$21 million. The most significant items contributing to the increase for State Police and State employees were higher than expected salary increases. Slightly offsetting this was a gain due to more than expected investment earnings on an actuarial value basis. Other sources of gains and losses were relatively small and there appear to be no trends developing that would be of concern to the System. The following tables show the reconciliation of the UAAL of the System and a breakdown by source of the actuarial gains and losses for State employees and State Police. These sources include the expected return on assets, salary increases, retirement, withdrawal, disability, and mortality.

Since the benefits, assumptions and accrued liability rates vary by location for the Local employees, we do not develop an analysis of financial experience by source for this group.

SECTION VI - ANALYSIS OF FINANCIAL EXPERIENCE

RECONCILIATION OF UAAL, AVA, AND AAL FOR THE YEAR ENDING SEPTEMBER 30, 2024 (\$ THOUSANDS)

UAAL (Unfunded Actuarial Accrued Liability)	State Employees	State Police
(1) UAAL at beginning of year	\$ 3,911,232	\$ 373,579

(22) Total normal cost at beginning of year	130,521	11,854
(23) Actual disbursements	(625,888)	(49,227)
(24) Interest accrual: $[(21) + (22)] + \frac{1}{2} [(23)] \times 7.45\%$	664,539	56,022
(25) Expected AAL before changes: $(21) + (22) + (23) + (24)$	\$ 9,271,575	\$ 783,383
(26) Changes in benefit provisions	-	-
(27) Changes in actuarial assumptions and methods	-	-
(28) Expected AAL after changes: $(25) + (26) + (27)$	\$ 9,271,575	\$ 783,383
(29) AAL at end of year	9,465,504	808,488
(30) AAL (Gain)/Loss: (29) - (28)	\$ 193,929	\$ 25,105

SECTION VI - ANALYSIS OF FINANCIAL EXPERIENCE

(GAINS)/ LOSSES BY SOURCE FOR THE YEAR ENDING SEPTEMBER 30, 2024 (\$ THOUSANDS)

(Gains)/Losses by Source for FYE September 30, 2024				
Source	State Employees		State Police	
	Total	% of AAL	Total	% of AAL
Age and Service Retirements. Generally, earlier retirements cause losses and later retirements cause gains.	\$ (20,525)	(0.22%)	\$ (2,195)	(0.27%)
Withdrawal. More withdrawals than expected usually cause gains and less withdrawals than expected cause losses.	(7,035)	(0.07%)	(988)	(0.12%)
Disability Retirements. More disabilities than expected generally cause losses and less disabilities than expected cause gains.	(1,224)	(0.01%)	(78)	(0.01%)
Death-In-Service Benefits. If survivor claims are less than assumed, there is a gain. If claims are more than assumed, there is a loss.	(1,026)	(0.01%)	269	0.03%
Salary Increases. If salaries increase more than expected, there is a loss. If salaries increase less than expected, there is a gain.	181,968	1.92%	20,350	2.52%
New Members/Rehires. Any past service causes losses.	32,874	0.35%	8,525	1.05%
Retiree Mortality. More deaths than expected cause gains, less than expected cause losses.	8,408	0.09%	2,008	0.25%
Investment Return. Investment income greater than expected causes gains while investment income less than expected cause losses.	(65,589)	(0.69%)	(5,092)	(0.63%)
Other. Miscellaneous gains and losses resulting from data corrections, timing of financial transactions, unit transfers, changes in valuation software, etc.	489	0.01%	(2,787)	(0.34%)
Total Actuarial (Gains)/Losses	\$ 128,341	1.37%	\$ 20,013	2.48%

SECTION VI - ANALYSIS OF FINANCIAL EXPERIENCE

¹ Reflects changes in actuarial assumptions and methods.

² Reflects impact of Act 2019-132.

³ Reflects impact of Act 2022-351 and Act 2022-184.

⁴ Reflects impact of Act 2023-73.

SECTION VII - ACCOUNTING INFORMATION

3. The information presented in the required supplementary schedules was determined as part of the actuarial valuation at September 30, 2024. Additional information as of the latest actuarial valuation follows.

Group	State Employees	State Police	Local Employees
Valuation Date	September 30, 2024	September 30, 2024	September 30, 2024
Actuarial Cost Method	Entry Age	Entry Age	Entry Age
Amortization method	Level percent closed	Level percent closed	Level percent closed
Single equivalent remaining amortization period	24.0 years	17.9 years	Within 30 years-varies by employer
Asset valuation method	Five-year market related value	Five-year market related value	Five-year market related value
Actuarial Assumptions			
Investment rate of return*	7.45%	7.45%	7.45%
Projected salary increases*	3.25 - 6.00%	4.00 - 7.75%	3.25 - 6.00%
Cost-of-living adjustment	None	None	None
*Includes price inflation at	2.50%	2.50%	2.50%

SECTION VIII - RISK ASSESSMENT

Overview

Actuarial Standards of Practice (ASOP) No. 51, issued by the Actuarial Standards Board, provides guidance on assessing and disclosing risks related to pension plan funding. This guidance is binding on all credentialed actuaries practicing in the United States. This standard was issued as final in September 2017 with application to measurement dates on or after November 1, 2018.

The term “risk” frequently has a negative connotation, but from an actuarial perspective, it can simply be considered that what actually happens in the real world will not always match what was expected, based on actuarial assumptions. Of course, when actual experience is better than expected, the favorable risk is easily absorbed. The risk of unfavorable experience will likely be unpleasant, and so understandably, there is a focus on aspects of risk that are negative.

Risk can usually be reduced or eliminated at some cost. Consumers, for example, buy auto and home insurance to reduce the risk of accidents or catastrophes. Another way to express this concept, however, is that there is generally some reward for assuming risk. Thus, retirement plans invest not just in US Treasury bonds, which have almost no risk, but also in equities, which are considerably riskier – because they have an expected reward of a higher return that justifies the risk.

Under ASOP 51, the actuary is called upon to identify the significant risks to the pension plan and provide information to help those sponsoring and administering the plan understand the implications of these risks. In this section, we identify some of the key risks for the System and provide information to help interested parties better understand these risks.

SECTION VIII - RISK ASSESSMENT

Investment Risk

The investment return on assets is the most obvious risk – and usually the largest risk – to funding a pension plan. To illustrate the magnitude of this risk, the following chart shows the Asset Volatility Ratio (AVR), defined as the fair value of assets divided by covered payroll.

ASSET VOLATILITY RATIO (AVR) (\$ THOUSANDS)

Valuation	Fair Value of Assets	Covered Payroll	Asset Volatility Ratio (AVR)
State Employees			
2024	\$5,779,326	\$1,743,401	3.31
2023	\$4,978,869	\$1,588,688	3.13
2022	\$4,682,983	\$1,502,383	3.12
2021	\$5,714,043	\$1,422,424	4.02
2020	\$4,931,877	\$1,423,648	3.46
2019	\$4,917,295	\$1,357,896	3.62
State Police			
2024	\$442,955	\$64,961	6.82
2023	\$375,932	\$57,248	6.57
2022	\$338,356	\$51,898	6.52
2021	\$410,079	\$50,819	8.07
2020	\$348,883	\$51,687	6.75
2019	\$342,665	\$43,005	7.97

The asset volatility ratio is especially useful to compare across plans or through time. It is also frequently useful to consider how the AVR translates into changes in the Required Contribution Rate (actuarially determined employer contribution rate). The greater the AVR, the more volatility there is in the Required Contribution Rate. For plans with low AVR's, the impact of investment gains and losses on Required Contribution Rates is less than for plans with high AVR's. The AVR for State Employees as of September 30, 2024 is 3.31 and the AVR for State Police is 6.82.

SECTION VIII - RISK ASSESSMENT

As shown in the table below, if the market value return is 5% below assumed, or 2.45% (7.45% minus 5.00%) for the System, there will be an increase in the Required Contribution Rate of 0.46% of payroll in the first year for State Employees and 0.95% for State Police. Without asset smoothing or without returns above the expected return in the next four years, the impact on the Required Contribution Rate would be 2.30% for State Employees and 4.74% for State Police.

IMPACT ON EMPLOYER RATE BASED ON AVR

AVR	Unsmoothed Amortization	Smoothed Amortization
State Employees		
3.00	2.08%	0.42%
3.31	2.30%	0.46%
4.00	2.78%	0.56%
State Police		
6.00	4.17%	0.83%
6.82	4.74%	0.95%
7.00	4.86%	0.97%

SECTION VIII - RISK ASSESSMENT

Sensitivity Measures

Valuations are generally performed with a single set of assumptions that reflects the best estimate of future conditions, in the opinion of the actuary and typically the governing board. Note that under actuarial standards of practice, the set of economic assumptions used for funding must be consistent. To enhance the understanding of the importance of an assumption, a sensitivity test can be performed where the valuation results are recalculated using a different assumption or set of assumptions.

The following tables contain the key measures for the System using the valuation assumption for investment return of 7.45%, along with the results if the assumption were 6.45% or 8.45%. In this analysis, only the investment return assumption is changed. Consequently, there may be inconsistencies between the investment return and other economic assumptions such as inflation or payroll increases. In addition, simply because the valuation results under alternative assumptions are shown here, it should not be implied that CMC believes that either assumption (6.45% or 8.45%) would comply with actuarial standards of practice. The contribution rates below represent the full ADEC with phase in.

Component	Based on Discount Rate of:		
	7.45% (Current)	6.45% (Current less 1%)	8.45% (Current plus 1%)
State Employees			
Results as of September 30, 2024			
Actuarial Accrued Liability (AAL)	\$9,465,504	\$10,474,740	\$8,609,875
Actuarial Value of Assets (AVA)	<u>5,397,948</u>	<u>5,397,948</u>	<u>5,397,948</u>
Unfunded Actuarial Accrued Liability (UAAL)	\$4,067,557	\$5,076,792	\$3,211,927
Funded Ratio (AVA ÷ AAL)	57.0%	51.5%	62.7%
Employer Rates for FYE September 30, 2027			
Tier I (first hired prior to January 1, 2013)	17.49%	21.78%	13.72%
Tier II (first hired on or after January 1, 2013)	17.13%	20.82%	13.82%
State Police			
Results as of September 30, 2024			
Actuarial Accrued Liability (AAL)	\$808,488	\$895,107	\$735,158

Unfunded Actuarial Accrued Liability (UAAL)	\$394,701	\$481,320	\$321,371
Funded Ratio (AVA ÷ AAL)	51.2%	46.2%	56.3%
Employer Rates for FYE September 30, 2027			
Tier I (first hired prior to January 1, 2013)	59.41%	70.39%	49.82%
Tier II (first hired on or after January 1, 2013)	56.87%	67.01%	47.91%

SECTION VIII - RISK ASSESSMENT

Mortality Risk

The mortality assumption is a significant assumption for valuation results, second only to the investment assumption in most situations. The System's mortality assumption utilizes a mortality table (with separate rates for males and females, as well as different rates by status) and a projection scale for how the mortality table is expected to improve through time.

The future, however, is unknown, and actual mortality improvements may occur at a faster rate than expected, or at a slower rate than expected. Although changes in mortality will affect the benefits paid, this assumption is reviewed carefully during the regular experience studies that the System conducts so that incremental changes can be made to smoothly reflect emerging experience. The risk to the System due to mortality is significantly reduced due to the use of the generational improvement method. The next actuarial experience study will be for the period from October 1, 2020 to September 30, 2025.

Contribution Risk

The System is funded primarily by member and employer contributions to the trust fund, together with the earnings on those accumulated contributions. Each year in the valuation, the Actuarial Determined Employer Contribution (ADEC) rate is determined, based on the System's funding policy. This rate is the sum of the rates for the normal cost for the plan (which includes expected administrative expenses), and the rate necessary to amortize the UAAL. Since the level percentage of payroll method is used to determine the UAAL amortization amounts, there is an expectation that future payments will grow at the assumed 2.75% annual rate of increase in covered payroll. If payroll grows at a slower rate, under this amortization method, less than expected UAAL amortization payments would result in a greater UAAL in future years and may require increases to either the amortization rate or the amortization period. From a policy perspective, since the ADEC rate has always been made by the plan sponsors, and that procedure is expected to continue, there is no risk to the System associated with the contribution amounts being less than the ADEC.

Liquidation Risk

Under the revised Actuarial Standards of Practice (ASOP) No. 4 effective for valuations after February 15, 2023, we must now include a low-default-risk obligation measure of the System's liability in our funding valuation report. This is an informational disclosure as described below and would not be appropriate for assessing the funding progress or health of this plan.

This measure uses the unit credit cost method and reflects all the assumptions and provisions of the funding valuation except that the discount rate is derived from considering low-default-risk fixed income securities. We considered the FTSE Pension Discount Curve based on market bond rates published by the Society of Actuaries as of September 30, 2024 and with the 30-year spot rate used for all durations beyond 30. Using these assumptions, we calculate a liability of approximately \$28 billion for all plans.

This amount approximates the termination liability if the plan (or all covered employment) ended on the valuation date and all of the accrued benefits had to be paid with cash-flow matched bonds. This assurance of funded status and benefit security is typically more relevant for corporate plans than for governmental plans since governments rarely have the need or option to completely terminate a plan.

SCHEDULE A - VALUATION BALANCE SHEET AND SOLVENCY TEST

VALUATION BALANCE SHEET SHOWING THE PRESENT AND PROSPECTIVE ASSETS AND LIABILITIES OF THE EMPLOYEES' RETIREMENT SYSTEM OF ALABAMA

September 30, 2020	(249,015,747)	(249,015,747)	0

SCHEDULE C - SUMMARY OF RECEIPTS AND DISBURSEMENTS

Summary of Receipts and Disbursements for FYE September 30, 2024	State Employees	State Police	Local Employees	Total All Groups
(1) Receipts for the Period				
a. Contributions:				
i. Members	\$123,585,490	\$6,251,717	\$232,742,637	\$362,579,844
ii. Employers	265,236,411	31,791,295	353,180,894	650,208,600
iii. Other	330,000	0	0	330,000
iv. Total Contributions	\$389,151,901	\$38,043,012	\$585,923,531	\$1,013,118,444
b. Investment Income	\$1,042,945,768	\$78,207,568	\$1,818,833,526	\$2,939,986,862
c. Total Receipts for the Period	\$1,432,097,669	\$116,250,580	\$2,404,757,057	\$3,953,105,306
(2) Disbursements for the Period				
a. Benefit Payments	(\$608,740,092)	(\$51,012,631)	(\$739,172,699)	(\$1,398,925,422)
b. Refunds to Members	(17,452,667)	(99,484)	(44,340,825)	(61,892,976)
c. DROP Distributions	(1,848,137)	0	(1,074,705)	(2,922,842)
d. Miscellaneous:				
i. Transfers to Plant Fund	\$0	\$0	\$0	\$0
ii. Transfers to Expense Fund-Interest Forfeitures	(4,164,695)	0	0	(4,164,695)
iii. Transfers to Expense Fund-Investment Expenses	(3,142,154)	0	0	(3,142,154)
iv. Transfers to Pre-retirement Death Benefit Fund	(2,610,285)	0	0	(2,610,285)
v. Transfers Among Employers	6,317,696	1,884,805	(8,202,501)	0
vi. Unit Withdrawal	0	0	0	0
e. Total Disbursements for the Period	(\$631,640,334)	(\$49,227,310)	(\$792,790,730)	(\$1,473,658,374)
(3) Excess of Receipts Over Disbursements: (1)c. - (2)e.	\$800,457,335	\$67,023,270	\$1,611,966,327	\$2,479,446,932
(4) Reconciliation of Asset Balances				
a. Market Value of Assets as of September 30, 2023	\$4,978,868,889	\$375,931,713	\$8,717,047,404	\$14,071,848,006
b. Adjustment	\$0	\$0	\$0	\$0
c. Excess of Receipts Over Disbursements (3)	\$800,457,335	\$67,023,270	\$1,611,966,327	\$2,479,446,932
d. Market Value of Assets as of September 30, 2024:	<u>\$5,779,326,224</u>	<u>\$442,954,983</u>	<u>\$10,329,013,731</u>	<u>\$16,551,294,938</u>
Estimated Rate of Return on Market Value of Assets*	21.21%	21.21%	21.21%	21.21%

* Calculated assuming middle of year cash flow experience.

SCHEDULE D - ACTUARIAL ASSUMPTIONS AND METHODS

The assumptions and methods used in the valuation are based on the results of the Experience Investigation for the Five-Year Period Ending September 30, 2020, dated July 7, 2021, and adopted by the Board on September 14, 2021. The combined effect of the assumptions is expected to have no significant bias.

LONG-TERM INVESTMENT RATE OF RETURN: 7.45% per annum, compounded annually, including price inflation at 2.50%.

SALARY INCREASES: Representative values of the assumed annual rates of future salary increases are as follows and include wage inflation at 2.75% per annum:

STATE AND LOCAL EMPLOYEES

Service	Annual Rate *
0	6.00 %
1-5	4.25
6-10	4.00
11-15	3.75
16-19	3.50
20 & Over	3.25

STATE POLICE

Service	Annual Rate *
0-3	7.75 %
4-5	7.50
6	6.25
7-10	5.50
11-14	5.25
15-17	4.75
18-19	4.50
20 & Over	4.00

* Includes wage inflation at 2.75% per annum.

SCHEDULE D - ACTUARIAL ASSUMPTIONS AND METHODS

SEPARATIONS FROM ACTIVE SERVICE- STATE AND LOCAL EMPLOYEES

TERMINATION: Representative values of the assumed annual rates of withdrawal are shown in the following tables:

Years of Service	Annual Rate of Withdrawal*	
	Non-FLC Members	FLC Members
0-1	20.00%	16.50%
2	16.75	12.00
3	14.00	11.50
4	13.00	11.00
5	7.50	6.50
6	6.75	6.25
7	6.50	6.00
8	5.75	5.40
9	5.25	5.00
10-12	3.50	3.00
13-14	3.50	2.75
15	3.00	2.25
16-18	2.50	2.00
19	2.00	1.50
20+	1.50	1.50

There are no withdrawal decrements after eligibility for service retirement.

* For local employers with fewer than 25 employees the rates are multiplied by 50%.

SCHEDULE D - ACTUARIAL ASSUMPTIONS AND METHODS

SERVICE RETIREMENT: The assumed annual rates of service retirement are as follows:

REGULAR MEMBERS

Age	Annual Rate ¹			
	TIER I ²		TIER II	
	1 ST Eligible	Subsequent	1 ST Eligible	Subsequent
49 & Under	16.50%	10.50%	2.50%	2.50%
50 to 54	20.00	10.50	2.50	2.50
55 to 56	20.00	10.50	10.00	10.00
57	20.00	10.50	20.00	20.00
58	25.00	12.50	20.00	20.00
59	23.00	12.50	20.00	20.00
60	12.00	15.00	50.00	50.00
61	13.00	12.00	50.00	50.00
62	23.00	23.00	50.00	50.00
63	23.00	20.00	23.00	20.00
64	23.00	17.00	23.00	17.00
65	32.00	25.00	32.00	25.00
66	35.00	28.50	35.00	28.50
67	35.00	24.00	35.00	24.00
68 to 79	35.00	21.00	35.00	21.00
80 & Above	100.00	100.00	100.00	100.00

¹For local employers with fewer than 25 employees we assume that all members retire upon first eligibility for a service retirement benefit.

²25% are assumed to retire at age 60 with 25 years of service.

FLC MEMBERS

Age	Annual Rate ¹			
	TIER I ²		TIER II	
	1 ST Eligible	Subsequent	1 ST Eligible	Subsequent
48 & Under 49	35.00%	22.00%	2.50%	2.50%
50 to 51	35.00	22.00	10.00	10.00

		65	0.499	0.290					100.00

*There are no withdrawal decrements after eligibility for service retirement.

**Base mortality rates as of 2010 before application of the improvement scale

DEATH AFTER RETIREMENT: Rates of mortality are according to the Pub-2010 Below-Median Tables, projected generationally using the MP-2020 scale, which is adjusted by 66-2/3% beginning with year 2019:

Group	Membership Table	Set Forward (+)/ Setback (-)	Adjustment to Rates
Non FLC Service Retirees	General Healthy Below Median	Male: +2, Female: +2	Male: 90% ages < 65, 96% ages >= 65 Female: 96% all ages
FLC/State Police Service Retirees	Public Safety Healthy Below Median	Male: +1, Female: none	None
Beneficiaries	Contingent Survivor Below Median	Male: +2, Female: +2	None
Non-FLC Disabled Retirees	General Disability	Male: +7, Female: +3	None
FLC/State Police Disabled Retirees	Public Safety Disability	Male: +7, Female: none	None

SCHEDULE D - ACTUARIAL ASSUMPTIONS AND METHODS

DEATH IN ACTIVE SERVICE BENEFIT: For those eligible for service retirement who die in active service, it is assumed that 70% of beneficiaries will elect the lump sum death benefit, 20% will elect the Option 2 allowance, and 10% will elect the Option 3 allowance.

BENEFITS PAYABLE UPON SEPARATION FROM SERVICE: For active members who separate from service prior to eligibility for a service retirement allowance, the liability is assumed to be the greater of the value of the refund of contributions and the value of the deferred annuity.

UNUSED SICK LEAVE: 1.00% load on service retirement liabilities for active members (No load for Tier II members).

PERCENT MARRIED: 100% of employees are assumed to be married, with the wife 3 years younger than the husband.

ACTUARIAL METHOD: Individual entry age normal cost method. Actuarial gains and losses are reflected in the unfunded actuarial accrued liability.

ASSET METHOD: Actuarial value, as developed in Schedule B. The actuarial value of assets recognizes a portion of the difference between the market value of assets and the expected value of assets, based on the assumed valuation rate of return. The amount recognized each year is 20% of the difference between market value and expected market value.

LIABILITY FOR CURRENT INACTIVE MEMBERS: Member Contribution Balance is multiplied by a factor of 3.0 for vested local employees with incomplete data and by a factor of 1.0 for all non-vested inactive members.

LIABILITY FOR POST-DROP ACTIVE MEMBERS: Members are assumed to retire immediately and receive their accrued benefit.

COLA: No future ad hoc cost of living adjustments (COLAs) are assumed.

FUTURE SERVICE CREDIT: One year of creditable service per year of employment.

SCHEDULE E - ACTUARIAL COST METHOD

1. The valuation is prepared on the projected benefit basis, which is used to determine the present value of each member's expected benefit payable at retirement or death. The calculations are based on the member's age, years of service, sex, compensation, expected future salary increases, and an assumed future interest earnings rate (currently 7.45%). The calculations consider the probability of a member's death or termination of employment prior to becoming eligible for a benefit and the probability of the member terminating with a service, disability, or survivor's benefit. The present value of the expected benefits payable to active members is added to the present value of the expected future payments to retired members and beneficiaries to obtain the present value of all expected benefits payable to the present group of members and beneficiaries.
2. The employer contributions required to support the benefits of the System are determined following a level funding approach and consist of a normal contribution and an accrued liability contribution.
3. The normal contribution is determined using the "individual entry age normal" method. Under this method, a calculation is made to determine the uniform and constant percentage rate of employer contribution which, if applied to the compensation of each new member during the entire period of his anticipated covered service, would be required in addition to the contributions of the member to meet the cost of all benefits payable on his behalf.
4. The unfunded accrued liability is determined by subtracting the current assets and the present value of prospective employer normal contributions and member contributions from the present value of expected benefits to be paid from the System. The accrued liability contribution amortizes the balance of the unfunded accrued liability over a period of years from the valuation date.

SCHEDULE F - BOARD FUNDING POLICY

FUNDING POLICY OF THE EMPLOYEES' RETIREMENT SYSTEM BOARD OF CONTROL Effective September 30, 2021

The purpose of the funding policy is to state the overall funding objectives for the Employees' Retirement System of Alabama (System), the benchmarks that will be used to measure progress in achieving those goals, and the methods and assumptions that will be employed to develop the benchmarks.

The Board's funding policy applies to all plans administered by the Board of Control. The funding policy reflects the Board's long-term strategy for stability in funding of the plans.

I. Funding Objectives

The goal in requiring employer and member contributions to the System is to accumulate sufficient assets during a member's employment to fully finance the benefits the member is expected to receive throughout retirement. In meeting this objective, the System will strive to meet the following funding objectives:

- To maintain an increasing funded ratio (ratio of system actuarial value of assets to actuarial accrued liabilities) that reflects a trend of improved actuarial condition. The long-term objective is to attain a funded ratio which is consistent with the fiscal health and long-term stability of the System.
- To maintain adequate asset levels to finance the benefits promised to members and monitor the future demands for liquidity.
- To develop a pattern of contribution rates expressed as a percentage of member payroll or as a dollar amount for employers with no active members as measured by valuations prepared in accordance with applicable State laws and the principles of practice prescribed by the Actuarial Standards Board. In no event will the employer contribution rate be negative.
- To provide intergenerational equity for taxpayers with respect to System costs.

II. Benchmarks

To track progress in achieving the previously outlined funding objectives, the following benchmarks will be measured annually as of the valuation date. The valuation date is the date that the annual actuarial valuation of the System's assets and liabilities is prepared. This date is currently September 30th each year with due recognition that a single year's results may not be indicative of long-term trends:

- **Funded ratio** – The funded ratio, defined as the actuarial value of assets divided by the actuarial accrued liability, should increase over time, before adjustments for changes in benefits, actuarial methods, and/or actuarial assumptions.

SCHEDULE F - BOARD FUNDING POLICY

- **Unfunded Actuarial Accrued Liability (UAAL) for State Employees and State Police**
 - **Initial Total UAAL** - The initial total UAAL established as of the initial valuation date (September 30, 2021) for which this funding policy is adopted shall be amortized over a closed period. (A closed amortization period is one which is calculated over a fixed period and at the end of that period, the amount is fully amortized). All gains and losses occurring after the initial valuation date and before September 30, 2028 for State Employees, and September 30, 2021 for State Police, with the exception of those due to benefit improvements, shall be included in the remaining initial total UAAL each year and amortized over the remaining closed period.
 - **New Incremental UAAL** - Each valuation after the initial valuation date will produce a New Incremental UAAL consisting of all benefit changes that have occurred since the previous valuation. Each valuation beginning with the September 30, 2028 valuation for State Employees and the September 30, 2022 valuation for State Police, will produce a New Incremental UAAL consisting of all assumption and method changes and experience gains and/or losses that have occurred since the previous valuation
- **UAAL Amortization Period and Contribution Rates for State Employees and State Police**
 - The Initial Total UAAL will be amortized over a 27-year closed period for State Employees and a 21-year closed period for State Police.
 - Except as noted later, each New Incremental UAAL shall be amortized over a closed 20-year period.
 - Incremental UAAL resulting from plan changes that grant benefit improvements shall be amortized over a period not to exceed 15 years.
 - Employer Normal Contribution Rate – the contribution rate determined as of the valuation date each year based on the provisions of Alabama Code Section 36-27-24.
 - In each valuation subsequent to the adoption of this funding policy, the required employer contribution rate will be determined by the summation of the employer Normal Contribution Rate, a contribution rate for administrative expenses, a contribution rate for the pre-retirement death benefit fund, the individual amortization rate for each of the New Incremental UAAL bases, and the amortization rate for the remaining initial total UAAL.
- **UAAL and UAAL Amortization Period and Contribution Rates for Local Employers**

Local employers have assumptions and funding appropriate for their situations as deemed by Actuary and staff

SCHEDULE F - BOARD FUNDING POLICY

- **UAAL Amortization Period for Employers joining the System after the Implementation of this Funding Policy**
 - For Employers joining the System after the implementation of this Funding Policy, the employer contribution rate shall be computed as the sum of the employer Normal Contribution rate, a contribution rate for administrative expenses, a contribution rate for the pre-retirement death benefit fund and the initial UAAL contribution rate. The initial UAAL contribution rate shall be determined by amortizing the initial UAAL over a closed period equal to the expected future working lifetime of the active membership. This initial amortization period shall not be less than 10 years nor greater than 20 years.
- **Special Consideration**--If the resulting contribution rate will not support the cash flow and projected benefit payment needs of a particular unit or employer, then the RSA staff may approve a more aggressive funding policy for these units or employers. In addition, If the resulting contribution rate is determined to be in excess of the cash flow and projected benefit payment needs of a particular unit or employer, then the RSA staff may approve a less aggressive funding policy for these units or employers.

III. **Methods and Assumptions**

The actuarial funding method used to develop the benchmarks will be the Entry Age Normal (EAN) actuarial cost method. The actuarial methods and assumptions used will be those last adopted by the Board based upon the advice and recommendation of the actuary. The actuary shall conduct an investigation into the system's experience at least every five years and utilize the results of the investigation to form the basis for those recommendations.

IV. **Funding Policy Progress**

The Board will periodically have projections of funded status performed to assess the current and expected future progress towards the overall funding goals of the System.

SCHEDULE H - MAIN SYSTEM PROVISIONS

AS INTERPRETED FOR VALUATION PURPOSES

The Employees' Retirement System of Alabama was established on October 1, 1945. The valuation took into account amendments to the System effective through the valuation date. Act 2019-132 allows local employers that participate in the System to elect to provide Tier I retirement benefits to their Tier II employees, upon approval by the Board of Control, until May 8, 2021, and will be reflected in the valuations prepared for the individual employers. Act 2022-138 removes the deadline for this election effective April 13, 2022. There is a new tier (Tier II) of benefits for all members initially joining the System on and after January 1, 2013. Act 2023-73 revised the definition of "state police" to include all employees of the Alabama State Law Enforcement Agency who are certified by the Alabama Peace Officers' Standards and Training Commission and perform law enforcement duties, as well as investigators employed by the AG's office and Ethics Commission. These members pay the same employee contribution rate and receive the same benefits as State Police. The following summary describes the main benefit and contribution provisions of the System as interpreted for the valuation.

1 – DEFINITIONS

Average Final Compensation – the average compensation of a member for:

- Tier 1 - the 3 highest years in the last 10 years of creditable service
- Tier 2 - the 5 highest years in the last 10 years of creditable service

Membership Service – all creditable service rendered while a member of the Retirement System and for which contributions are made.

Creditable Service – the sum of membership service, prior service, and any other previous service established as creditable in accordance with the provisions of the retirement law.

Annuity – payments for life derived from accumulated contributions of a member.

Pension – payments for life derived from the accumulated contributions of an employer.

Retirement Allowance – the sum of the annuity and pension payments.

SCHEDULE H - MAIN SYSTEM PROVISIONS

2 – BENEFITS MEMBERS CLASSIFIED AS STATE EMPLOYEES

Service Retirement Allowance

Condition for Allowance

Tier I	A retirement allowance is payable upon the request of any member who has completed 25 years of creditable service, (except for employees of local employers who did not elect 25-year retirement), or who has attained age 60 and completed at least 10 years of creditable service.
Tier II	A retirement allowance is payable upon the request of any member who has completed 30 years of creditable service or who has attained age 62 and completed at least 10 years of creditable service (age 56 with 10 years of creditable service for a full-time certified firefighter, police officer, or correctional officer).

Amount of Allowance

Tier I	Upon service retirement, a member receives a retirement allowance equal to 2.0125% of the member's average final compensation multiplied by the number of years of his creditable service. At retirement, a member receives one additional year of creditable service in determining the retirement allowance for each five years of creditable service as a full-time certified firefighter, police officer, or correctional officer.
Tier II	Upon service retirement, a member receives a retirement allowance equal to 1.65% of the member's average final compensation multiplied by the number of years of creditable service. The benefit is capped at 80% of the member's average final compensation. For a member whose age at retirement is less than age 62 (age 56 for a full-time certified firefighter, police officer, or correctional officer), the amount of the allowance will be reduced by 2% for each year that the member's age is less than age 62 (age 56 for a full-time certified firefighter, police officer, or correctional officer).

SCHEDULE H - MAIN SYSTEM PROVISIONS

Disability Retirement Allowance

Condition for Allowance

A disability retirement allowance may be granted to a member who has 10 or more years of creditable service and becomes permanently incapacitated for duty before reaching eligibility for service retirement.

Amount of Allowance

Tier I

Upon retirement for disability, a member receives a retirement allowance equal to 2.0125% of the member's average final compensation multiplied by the number of years of his creditable service. At retirement, a member receives one additional year of creditable service in determining the retirement allowance for each five years of creditable service as a full-time certified firefighter, police officer, or correctional officer.

Tier II

Upon disability retirement, a member receives a retirement allowance equal to 1.65% of the member's average final compensation multiplied by the number of years of creditable service. The benefit is capped at 80% of the member's average final compensation.

Benefits Payable on Separation from Service

Any member who withdraws from service is entitled to receive a return of member contributions with allowable interest. A member who has completed 10 years of creditable service may, after separation from service, continue in the membership of the System and file for service retirement after reaching age 60 (age 62 for Tier II members).

Benefits Payable upon Death in Active Service

In the event of the death of a member eligible for service retirement, the designated beneficiary may elect: (1) to exercise option 2 (spouse) or option 3 (non-spouse beneficiary) as defined below under "Special Privileges at Retirement – All Employees" or (2) to receive a return of member contributions and total interest earned plus a death benefit payable from the preretirement death benefit fund equal to the salary on which the member made retirement contributions for the previous fiscal year (October 1 – September 30).*

SCHEDULE H - MAIN SYSTEM PROVISIONS

In the event of the death of a member with more than one year of creditable service who is not eligible for retirement, the designated beneficiary shall receive a return of member contributions and total interest earned. Also, the designated beneficiary shall receive an additional death benefit payable from the preretirement death benefit fund equal to the salary on which their retirement contributions were made for the previous fiscal year (October 1 – September 30).*

In the event of a job-related death of a member at any age with less than 1 year of creditable service, the designated beneficiary shall receive the return of member contributions and total earned interest plus a death benefit payable from the pre-retirement death benefit fund equal to the annual earnable compensation of the member at the time death occurs.*

In the event of a non-job-related death of a member with less than 1 year of service, the beneficiary shall receive the return of member contributions and total interest earned plus a matching death benefit which is limited to a maximum of \$5,000.

* However, if the death occurred more than 180 calendar days after the member's last day in pay status or if the deceased had applied for a refund of contributions or terminated employment, the lump sum will be the same as if the member had less than one year of creditable service and the death was not job-related.

Deferred Retirement Option Plan (DROP)

A member could elect to participate in the Deferred Retirement Option Plan (DROP) upon completion of at least 25 years of service (at least 30 years for employers that did not elect 25 year retirement) of creditable service (excluding sick leave) and attainment of at least 55 years of age. Under the DROP, the member deferred receipt of a retirement allowance and continued employment for a period not to exceed five years, nor to be less than three years. At the end of this period, the member withdrew from active service and received the retirement benefit based on his or her years of service credit at the time of enrollment in the DROP, and also received a payment for the deferred retirement benefits, employee contributions while participating in the DROP, and interest earned on DROP deposits.

SCHEDULE H - MAIN SYSTEM PROVISIONS

The effect of Act 2011-27 was that no new participants were allowed to enter DROP with an effective participation date after June 1, 2011.

Member Contributions

Tier I

Prior to October 1, 2011, regular members contributed 5.0% of salary. Full-time certified police officers, firefighters, and correctional officers contributed 6.0% of salary. DROP participants continued to contribute during the DROP period but received a refund of these contributions and regular interest upon retirement.

Beginning October 1, 2011, the contribution rates were increased to 7.25% of salary for regular members and 8.25% of salary for full-time certified police officers, firefighters, and correctional officers, for all State employees and for local employees whose employers elect to do so.

Beginning October 1, 2012, the contribution rates were increased to 7.50% of salary for regular members and 8.50% of salary for full-time certified police officers, firefighters, and correctional officers, for all State employees and for local employees whose employers elect to do so.

Tier II

Regular members contribute 6% of salary and full-time certified firefighters, police officers, and correctional officers, contribute 7% of salary.

Both

If positive investment performance results in a decrease in the total contribution rate paid by employers and employees participating in the System, the Retirement Systems of Alabama shall first reduce the employee contribution rate.

“Regular Interest” is 4% which is the rate adopted by the Board and applied to the balance in each member’s account every year; however, if a member receives a refund of contributions, the interest rate applied to the refund is lower than the 4% regular rate (Based on Section 36-27-16.3(c)(1)).

SCHEDULE H - MAIN SYSTEM PROVISIONS

MEMBERS OF LOCAL EMPLOYERS

Members of local employers generally receive the same benefit structure as State employees, however some benefits must be elected by individual employers. Members whose employers have not yet elected to grant retirement upon completion of 25 years of service must have 30 years of service for retirement before age 60 (For Tier I). These employers have the option of electing 25-year retirement for their Tier I members. Employers may also elect to increase Tier I member contribution rates to 7.5% of payroll for regular members and 8.5% of payroll for FLC members. Employers who have not elected to allow sick leave conversion may still elect to do so. Employers may elect to provide Tier I benefits to their Tier II members, provided the members pay the increased members rates shown above.

Members of the City of Montgomery who elected to remain under the City's retirement plan structure are subject to the conditions and benefit structure of that plan. A brief description of this structure is as follows:

Condition for Allowance

Group I

For general municipal employees hired before October 1, 2013, a retirement allowance is payable upon the request of any member who has completed 20 years of creditable service, or who has attained age 65 (25 years or age 62 if hired after October 1, 2005 or elected)

Group II

For members of the fire department or police department of the City, a retirement allowance is payable upon the request of any member who has completed 20 years of creditable service or attained age 62 (25 years or age 55 if hired after October 1, 2005, or 25 years or age 55 with 10 years of creditable service if hired after October 1, 2013)

Amount of Allowance

Group I

20-year retirement plan: Upon service retirement a member receives a retirement allowance equal to 2.0% of the member's average final compensation multiplied by the number of years of his creditable service (up to 20 years), and 1% of the member's average final compensation multiplied by the number of years of his creditable service over 20 years. Maximum benefit is 60% of average final compensation.

25-year retirement plan: Upon service retirement a member receives a retirement allowance equal to 2.0% of the member's average final compensation multiplied by the number of years of his creditable service. Maximum benefit is 100% of average final compensation.

SCHEDULE H - MAIN SYSTEM PROVISIONS

Group II

20-year retirement plan: Upon service retirement a member receives a retirement allowance equal to 2.5% of the member's average final compensation multiplied by the number of years of his creditable service (up to 20 years), and 1% of the member's average final compensation multiplied by the number of years of his creditable service over 20 years. Maximum benefit is 60% of average final compensation.

25-year retirement plan: Upon service retirement a member receives a retirement allowance equal to 2.5% of the member's average final compensation multiplied by the number of years of his creditable service. Maximum benefit is 100% of average final compensation.

Age 62 retirement plan: Upon service retirement a member receives a retirement allowance equal to 2.5% of the member's average final compensation multiplied by the number of years of his creditable service. Maximum benefit is 100% of average final compensation. Benefit is reduced by early retirement factor (5/9% for each month annuity start date precedes age 62 but not earlier than age 55).

Employee Retention Incentive Program (ERIP)

An employee is eligible to enter the ERIP plan if he or she is an active employee and has at least 20 years of service (25 years for a 25-year retirement plan participant). The participant can effectively elect to retire up to three years prior to termination and receive the payments that would have been made as a lump sum (accumulated with 5% interest). Subsequent monthly benefits are based on the benefit used to determine the lump sum.

Preretirement Death Benefits

If the member is eligible for a service retirement, 50% of the accrued benefit, reduced for a 50% joint and survivor annuity. If the member is not eligible for a service retirement benefit, a lump sum of member contributions is payable.

Disability Benefits

If a participant has 10 years of service and becomes permanently disabled he is entitled to immediately receive his monthly accrued benefit, based on his current years of service and current final average earnings.

SCHEDULE H - MAIN SYSTEM PROVISIONS

Separation Benefits

Group I	Return of contributions if less than 10 years of service. If more than 10 years of service, member is entitled to his accrued benefit payable at age 62 (age 65 for 20-year plan).
Group II	Return of contributions if less than 10 years of service. If more than 10 years of service, member is entitled to his accrued benefit payable at age 55 (age 62 for 20-year plan and Age 62 plan).

MEMBERS CLASSIFIED AS STATE POLICE

Service Retirement Allowance

Condition for Allowance	A retirement allowance is payable upon the request of any member who has completed 25 years of creditable service or who has attained age 52 and completed at least 10 years of creditable service.
-------------------------	---

Amount of Allowance

Tier I	<p>Upon service retirement a member receives a retirement allowance equal to 2.875% of the member's average final compensation multiplied by the number of years of his creditable service.</p> <p>A member who has attained 20 or more years of creditable service and retires prior to age 60 is eligible to receive a "bonus service credit" up to 4 years as follows:</p> <ul style="list-style-type: none">- Age 56 or older – bonus service of 4 years reduced by 1 month for each month over the age of 56.- Age 52 to 56 – bonus service of 4 years.- Age 52 or less (disability retirement only) – bonus service of 4 years.- Age 52 or less with 25 or more years of service – bonus service of 4 years.
--------	---

SCHEDULE H - MAIN SYSTEM PROVISIONS

Tier II	Upon service retirement a member receives a retirement allowance equal to 2.375% of the member's average final compensation multiplied by the number of years of his creditable service. At retirement, a member receives one additional year of creditable service in determining the retirement allowance for each five years of creditable service as a state police officer. The benefit is capped at 80% of the member's average final compensation.
Disability Retirement Allowance	
Condition for Allowance	A disability retirement allowance may be granted to a member who has 10 or more years of creditable service or who becomes disabled as a result of his employment in line of duty without regard to his years of creditable service, and who becomes permanently incapacitated, mentally or physically, for the further performance of duty before reaching the minimum age for service retirement.
Amount of Allowance	
Tier I	Upon retirement for disability, a member receives a retirement allowance equal to 2.875% of the member's average final compensation multiplied by the number of years of his creditable service.
Tier II	Upon retirement for disability, a member receives a retirement allowance equal to 2.375% of the member's average final compensation multiplied by the number of years of his creditable service. At retirement, a member receives one additional year of creditable service in determining the retirement allowance for each five years of creditable service as a state police officer. The benefit is capped at 80% of the member's average final compensation.
Benefits Payable on Separation from Service	Any member who withdraws from service is entitled to receive a return of member contributions with allowable interest. A member who has completed 10 years of creditable service may, after separation from service, continue in the membership of the System and file for service retirement after reaching age 52.

SCHEDULE H - MAIN SYSTEM PROVISIONS

Benefits Payable upon Death in Active Service

In the event of the death of a member who is eligible for service retirement, the designated beneficiary may elect: (1) to exercise option 2 (spouse) or option 3 (non-spouse beneficiary) as defined below under “Special Privileges at Retirement – All Employees” or (2) to receive a return of member contributions and total interest earned plus a death benefit payable from the preretirement death benefit fund equal to the salary on which the member made retirement contributions for the previous fiscal year (October 1 – September 30).*

In the event of the death of a member with more than one year of creditable service who is not eligible for retirement, the designated beneficiary shall receive a return of member contributions and total interest earned. Also, the designated beneficiary shall receive an additional death benefit payable from the preretirement death benefit fund equal to the salary on which their retirement contributions were made for the previous fiscal year (October 1 – September 30).*

In the event of a job-related death of a member at any age with less than 1 year of creditable service, the designated beneficiary shall receive the return of member contributions and total earned interest plus a death benefit payable from the preretirement death benefit fund equal to the annual earnable compensation of the member at the time death occurs.*

In the event of a non-job-related death of a member with less than 1 year of creditable service, the beneficiary shall receive the return of member contributions and total interest earned plus a matching death benefit which is limited to a maximum of \$5,000.

- * However, if the death occurred more than 180 calendar days after the member's last day in pay status, or if the deceased had applied for a refund of contributions or terminated employment, the lump sum will be the same as if the member had less than one year of creditable service and the death was not job-related.

SCHEDULE H - MAIN SYSTEM PROVISIONS

Deferred Retirement Option Plan (DROP)

Prior to March 25, 2011, a member could elect to participate in the Deferred Retirement Option Plan (DROP) upon completion of at least 25 years of creditable service (excluding sick leave) and attainment of at least 52 years of age. Under the DROP, the member deferred receipt of a retirement allowance and continued employment for a period not to exceed five years, nor to be less than three years. At the end of this period, the member withdrew from active service and received the retirement benefit based on his or her years of service credit at the time of enrollment in the DROP, and also received a payment for the deferred retirement benefits, employee contributions while participating in the DROP, and interest earned on DROP deposits.

The effect of Act 2011-27 was that no new participants were allowed to enter the DROP with an effective participation date after June 1, 2011.

Member Contributions

Each member contributes 10% of salary.

3 - SPECIAL PRIVILEGES AT RETIREMENT – ALL MEMBERS

In lieu of the full retirement allowance, any member may, at retirement, elect to receive a reduced retirement allowance equal in value to the full allowance, with the provision that:

Option 1. If the member dies before the annuity payments equal or exceed the present value of the member's annuity at the date of retirement, the balance is paid to a designated beneficiary or to his/her estate, or

Option 2. After the member's death, the member's allowance is continued throughout the life of the designated beneficiary, or

Option 3. After the member's death, one half of the member's allowance is continued throughout the life of the designated beneficiary, or

SCHEDULE H - MAIN SYSTEM PROVISIONS

Option 4. Some other benefit is paid either to the member or to the designated beneficiary provided such benefit, together with the reduced retirement allowance, is of equivalent actuarial value to his retirement allowance and is approved by the Board of Control.

Partial Lump Sum Option Plan (PLOP). For members retiring on or after October 1, 2019, in addition to selecting Options 1, 2, 3, or 4, the member may also elect to receive a one-time lump-sum distribution in addition to the monthly retirement benefit. The PLOP distribution will be made as a single payment at the time the first monthly benefit is paid. Based on the amount of the PLOP and the member's age, the monthly retirement benefit is actuarially reduced.
