"(2) AMOUNT OF SERVICE RETIREMENT ALLOWANCE.

"a. Upon retirement from service a Tier I plan member shall receive a service retirement allowance which shall consist of:

"1. An annuity which shall be the actuarial equivalent of his or her accumulated contributions at the time of his or her retirement; except, that in the case of a state policeman who has completed 20 years of creditable service as a state policeman who retires after age 56 but prior to age
60, the annuity shall be equal to the annuity that would have been payable upon service retirement at age 60 had the member continued in service to age 60 without change in compensation;

"2. A pension which shall be equal to the annuity allowance at age of retirement, but not to exceed an annuity allowable at age 65, computed on the basis of contributions made prior to attainment of age 65; except, that in the case of a state policeman who has completed 20 years of creditable service as a state policeman who retires after age 56 but prior to age 60, the pension shall be equal to the annuity that he or she would have received had he or she contributed to age 60 without change in compensation; and

"3. An additional pension, if he or she has a prior service certificate in full force and effect, which shall be equal to the annuity which would have been provided at the age of retirement, but which shall not exceed an annuity allowable at age 65 by twice the contributions which he or she would have made during the period of prior service with which he or she is credited had the system been in operation and had he or she contributed thereunder; except, that in case of a state policeman who has completed 20 years of creditable service as a state policeman who retired after age 56 but prior to age 60, an additional pension, if he or she has a prior service certificate in full force and effect, which shall be equal to the annuity which would have been provided at age 60, but which shall not exceed an annuity allowable at age 60 by twice the contributions which he or she would have made during the

the system been in operation and had he or she contributed
thereunder.

policeman who is a Tier I plan member and who has completed 20
years of service as a state policeman who retires after age 52
but prior to age 56 shall receive:

"1. An annuity which shall be equal to the annuity
that would have been payable had the member continued in
service for four years without change in compensation;

that he or she would have received had he or she contributed
for four years without change in compensation; and

"3. An additional pension, if he or she has a prior
service certificate in full force and effect, which shall be
equal to the annuity which would have been provided at the age
of retirement, but which shall not exceed an annuity allowable
at the age of retirement plus four years by twice the
contributions which he or she would have made during the
period of prior service with which he or she is credited had
the system been in operation and had he or she contributed
thereunder. In lieu of a determination of the actual
compensation of a member that was received during such prior
service, the Board of Control may use for the purpose of this
article the compensation rate which, if it had progressed with
the rates of salary increase shown in the tables as prescribed
in subsection (n) of Section 36-27-23, would have resulted in
the same average salary of the member for the five years
immediately preceding the date of establishment as the records
show the member actually received.

c. The annual service retirement pension payable to
a Tier I plan member not employed as a state policeman
retiring on or after October 1, 1975, shall not be less than
an amount which, when added to his or her annuity, is equal to
the greater of the following two amounts:

1. Two and one-eighth percent of the member's
average final compensation multiplied by the number of years
of his or her creditable service; or

which, when added to his or her annuity is equal to the
greater of the following two amounts:

1. Two and seven-eighths percent of the member's
average final compensation multiplied by the number of years
of his or her creditable service. Creditable service for any
state policeman under the age of 56 years who has completed 20
years of creditable service as a state policeman shall include
a bonus equal to four additional years. Creditable service for
a state policeman 56 years or older shall include a bonus

member reaches age 60; or

2. If he or she became a member before October 1, 1965, $86.40 multiplied by the number of years of his or her
creditable service not in excess of 25 years; provided,
however, that if such member has completed 20 years of
creditable service as a state policeman and has not attained
age 60 at the time of retirement, the pension shall be
determined as provided in this subparagraph on the basis of
the number of years of creditable service which he or she
would have had if he or she had remained in service for four
years, except that, in the case of those state policemen
retiring at age 56 or after, the number of years in
determining the pension shall not exceed the number of years
of creditable service which he or she would have had if he or
she had remained in service to age 60.

e. Upon retirement from service, a Tier II plan
member who is not employed as a state policeman shall receive
a service retirement allowance which shall consist of an
annuity which shall be the actuarial equivalent of the
member's accumulated contributions at the time of retirement
and a pension which, when added to the member's annuity, shall
be equal to one and sixty-five hundredths percent (1.65%) of

Notwithstanding the foregoing, the service retirement allowance shall not exceed eighty percent (80%) of the member's average final compensation.

"g. Upon retirement from service, a Tier III plan member shall receive a service retirement allowance which shall consist of an annuity which shall be the actuarial equivalent of the member's accumulated contributions at the time of retirement and a pension which, when added to the member's annuity, shall be equal to two percent (2%) of the member's average final compensation multiplied by the number of years of creditable service. Notwithstanding the foregoing, the service retirement allowance shall not exceed eighty percent (80%) of the member's average final compensation.

"g. h. Anything in this article to the contrary notwithstanding, in the application of the foregoing provisions of this subdivision to a member whose creditable
service includes a period of service as a state policeman and
a period of service in another employment classification, the
benefit rates applicable to a member employed as a state
policeman shall apply to all creditable service as a state
policeman, and the benefit rates applicable to a member not
employed as a state policeman shall apply to all creditable
service, but in all other respects the pension under this
subdivision shall be determined on the basis of the member's
employment classification at the time of his or her withdrawal
from service.

"h. i. The annual service retirement pension payable
to any state employee who had attained age 60 on or before
October 1, 1945, who declined membership in the Employees'
Retirement System of Alabama in the manner prescribed in
Section 36-27-4 and who retires as a state employee after
completing a minimum of 15 years' service shall be $72.00
multiplied by the number of years of his or her service not in
excess of 25 years.

"(b)(1) RETIREMENT OF DISABLED EMPLOYEES;
ELIGIBILITY FOR DISABILITY RETIREMENT BENEFITS.

"a. Upon application of a Tier I plan member in
service or of his or her employer, any member who has had 10
or more years of creditable service who becomes disabled may
be retired on a disability retirement allowance by the Board
of Control not less than 30 nor more than 90 days next
following the date of filing of such application; provided,
that the medical board, after a medical examination of such

receive a service retirement allowance if he or she is a Tier
I plan member and he or she has attained age 60 or if he or
she is a Tier II or Tier III plan member and he or she has
attained age 62, or if any law or part of any law pertaining
to retirement under the Employees' Retirement System of
Alabama provides for service retirement after the completion
of 25 years of creditable service or 30 years of creditable
service without a reduction in the retirement allowance and
the member has completed 25 years of creditable service or 30

"1. Two and seven-eighths percent of the member's average final compensation multiplied by the number of years of his or her creditable service. Creditable service for any state policeman under the age of 56 years who has completed 20 years of creditable service as a state policeman shall include a bonus equal to four additional years. II or Tier III plan member refuse to submit to such medical examination, his or her allowance may be discontinued until his or her withdrawal of such refusal, and, should his or her refusal continue for one year, all his or her rights in and to his or her pension may be revoked by the Board of Control; provided, that these requirements relative to the medical examination shall not apply in the case of a state policeman retired for disability and who has attained age 52 if he or she is a Tier I plan member or in the case of a state policeman or a correctional officer, firefighter, or law enforcement officer as defined in Section 36-27-59 with at least ten years of creditable service as a correctional officer, firefighter, or law enforcement officer retired for disability who has attained age 56 if he or she is a Tier II or Tier III plan member. Should the medical board report and certify to the Board of Control that a disability beneficiary who is a Tier I plan member is engaged in or is able to engage in a gainful occupation paying more than the difference between his or her retirement allowance and his or her average final compensation and should the Board of Control concur in such report, then the amount of his or her pension shall be reduced to an amount which, together with his or her annuity and the amount earnable by him or her shall equal the amount of his or her average final compensation. Should his or her earning capacity be later changed, the amount of his or her pension may be further modified; provided, that the new pension shall not exceed the amount of the pension originally
granted nor an amount which, when added to the amount earnable
by the beneficiary, together with this annuity exceeds the
amount of his or her average final compensation.

"Should the medical board report and certify to the
Board of Control that a disability beneficiary who is a Tier
II or Tier III plan member has the capacity to engage in
regular and substantial gainful employment, the Board of
Control shall discontinue the beneficiary's retirement
allowance until the beneficiary is otherwise eligible for
service retirement.

upon death, etc., of member.

by death or by retirement under the provisions of this
article, the contributions standing to the credit of his or
her individual account in the Annuity Savings Fund shall be
paid to him or her upon demand and, in addition to such
payment, there shall be paid five-tenths of the interest
accumulations standing to the credit of his or her individual
account if he or she shall have not less than three but less
than 16 years of membership service, six-tenths of such

less than 21 but less than 26 years of membership service and
eight-tenths of such interest accumulations if he or she shall
have not less than 26 years of membership service.
"(2) In case of the death of a member eligible for
service retirement pursuant to subsection (a) of this section,
an allowance shall be paid to the surviving spouse, or to such
other person who the member shall have designated, in an
amount that would have been payable if the member had retired
immediately prior to his or her death and had elected Option
3, as set forth in subsection (d) of this section or,
alternatively, if the surviving spouse or other designee
desires, he or she may choose to receive, in lieu of the
allowance provided under Option 3, the accumulated
contributions of the member plus an amount equal to the
accumulated contributions of the member not to exceed
$5,000.00 or the accumulated contributions of the member plus
the benefit provided by Section 36-27B-3 if a benefit is
payable under such section;

"(3) In case of the death of a Tier I plan member
not eligible for service retirement, after completion of 25
years of creditable service, an allowance shall be paid to the
surviving spouse, or to such other person who the member shall
have designated, in an amount that would have been payable if
the member had retired for disability immediately prior to his
or her death and had elected Option 3 as set forth in
subsection (d) of this section or, alternatively, if the
surviving spouse or other designee desires, he or she may
choose to receive, in lieu of the allowance provided under
Option 3, the accumulated contributions of the member plus an
amount equal to the accumulated contributions of the member
not to exceed $5,000.00 or the accumulated contributions of
the member plus the benefit provided by Section 36-27B-3 if a
benefit is payable under such section;

"(4) Upon the death of a member on account of whom
no survivor allowance is payable under subdivisions (2) or (3)
of this subsection, the accumulated contributions of the
member plus an amount equal to the accumulated contributions
not to exceed $5,000 or the accumulated contributions of the
member plus the benefit provided by Section 36-27B-3 if a
benefit is payable under such section shall be paid to his or
her estate or to such person as he or she shall have nominated
by written designation duly executed and filed with the Board
of Control.

"(d) Optional allowances. With the provision that
the election of an option shall be effective on the effective
date of retirement, any member may elect prior to retirement
to receive, in lieu of his or her retirement allowance payable
throughout life, the actuarial equivalent, at that time, of
his or her retirement allowance in a reduced retirement
allowance payable throughout life with the provisions that:

"(1) OPTION 1. If he or she dies before he or she
has received in annuity payments the present value of his or
her annuity as it was at the time of his or her retirement,
the balance shall be paid to his or her legal representatives
or to such person as he or she shall nominate by written
designation duly acknowledged and filed with the Board of
Control;
"(2) OPTION 2. Upon his or her death, his or her reduced retirement allowance shall be continued throughout the life of and paid to such person as he or she shall nominate by written designation duly acknowledged and filed with the Board of Control at the time of his or her retirement;

"(3) OPTION 3. Upon his or her death, one half of his or her reduced allowance shall be continued throughout the life of and paid to such person as he or she shall nominate by written designation duly acknowledged and filed with the Board of Control at the time of his or her retirement; or

"(4) OPTION 4. Some other benefit or benefits shall be paid either to the member or to such person or persons as he or she shall nominate; provided, that such other benefits, together with the reduced retirement allowance, shall be certified by the actuary to be of equivalent actuarial value to his or her retirement allowance and shall be approved by the Board of Control.

"(e) Effect of return to active service. Should any beneficiary be restored to active service, his or her retirement allowance shall be suspended until he or she again withdraws from service and he or she shall not again become a member of the retirement system nor shall he or she make contributions; except, that should such beneficiary who has been restored to active service continue in service for a period of two or more years from the date of his or her reentry into active service, he or she may request the Board of Control to allow him or her to again become a member of the
retirement system. The Board of Control may grant the request for restoration to membership; provided, that such beneficiary whose retirement allowance has been suspended shall repay to the system all moneys received by him or her as benefits during any periods subsequent to the date of his or her reentry into active service and shall make a contribution equal to the amount he or she would have contributed had he or she been a member during the period of his or her restoration to active service on a suspended allowance basis together with the interest which would have been credited to the contributions on account of such period of restoration up to the date such contribution is made.

"(f)(1) REDETERMINATION, ETC., OF CERTAIN ALLOWANCES. All retirement allowance payments due on or after October 1, 1975, to members who retired prior to that date shall be redetermined as if the provisions of this section in effect on October 1, 1975, were in effect at the time the member retired. Anything in this article to the contrary notwithstanding, the annual retirement allowance of any member not employed as a state policeman who retired on or before January 1, 1956, shall not be less than $79.20 multiplied by the number of years of his or her creditable service not in excess of 30 years in the case of service retirement of $59.40 multiplied by the number of years of his or her creditable service not in excess of 30 years in the case of disability retirement. Any increase provided in the retirement allowance payment under this subdivision for a member who retired under
the provisions of any optional benefit elected pursuant to subsection (d) of this section shall accrue only to the retired member, and no person designated to receive any payments after the death of a retired member under the provisions of any such optional benefit shall receive any increase in such payments under this subdivision.

Notwithstanding, any member who retired prior to October 1, 1975, and who chose either Option 2 or Option 3 may elect to receive a reduced allowance and to stipulate that the actuarial equivalent of the increase in his or her retirement allowance, which became effective on that date, be ascribed to his or her designated beneficiary; provided, that such member shall clearly express this intention by filing a written application to the effect with the Secretary-Treasurer of the Employees' Retirement System of Alabama prior to October 1, 1976.

"(2) Any person who, prior to October 1, 1963, was in receipt of a benefit pursuant to Act No. 376, approved November 6, 1959, but was not a member of the system at the time of retirement shall not be entitled to receive an annual retirement allowance from the system, effective October 1, 1971, as follows:

"a. If such person was retired on or before January 1, 1956, an amount equal to $79.20 multiplied by the number of years of his or her creditable service not in excess of 30 years.
"b. If such person was retired after January 1, 1956, an amount equal to $72.00 multiplied by the number of years of his or her creditable service not in excess of 25 years.

"(3) Prior to October 31, 1975, any beneficiary may elect to leave on deposit with the system all or a specified part of any increase in his or her monthly retirement allowance payments arising in accordance with subdivisions (1) or (2) of this subsection over the monthly allowance which he or she was receiving prior to October 1, 1975. The portion of each monthly payment left in the system in accordance with such election shall be credited, together with regular interest thereon, to the individual account of such beneficiary. Upon the death of such beneficiary the total amount standing to his or her credit, including regular interest to the date of death, shall be paid in a lump sum to his or her legal representatives or to such person as he or she shall have nominated by written designation duly acknowledged and filed with the Board of Control.

"(g) Notwithstanding any other provisions of this section to the contrary, when a designated beneficiary for a member predeceases the member who is receiving a monthly benefit allowance provided under Option 2, 3, or 4, the member may designate a replacement beneficiary for the deceased beneficiary to become effective two years after the date of designation of the replacement beneficiary and an actuarial adjustment in the monthly benefit allowance of the member to
cover any cost associated with designating a replacement beneficiary shall be reflected thereafter in the monthly benefit allowance received by the member, commencing with the first benefit allowance check received by the member following the date of designation of the replacement beneficiary.

"(h) Notwithstanding any provision of this section to the contrary, if a retired member who is receiving a monthly benefit allowance provided under Option 2, 3, or 4 divorces his or her designated beneficiary, the member may designate a replacement beneficiary for the beneficiary to become effective two years after the date of designation of the replacement beneficiary and an actuarial adjustment in the monthly benefit allowance of the member to cover any cost associated with designating a replacement beneficiary shall be reflected thereafter in the monthly benefit allowance received by the member, commencing with the first benefit allowance check received by the member following the date of designation of the replacement beneficiary.

"(i) Any future act to increase the retirement age for Tier II plan members above the age of 62 shall require a two-thirds vote of the elected membership of each house of the Legislature.

"(a) Effective October 1, 1997, all the assets of the retirement system shall be credited according to the purpose for which they are held among three funds, namely, the Annuity Savings Fund, the Pension Accumulation Fund, and the
Expense Fund. The operation of the former Pension Reserve Fund and the Annuity Reserve Fund shall be discontinued as of such date and the balance of the former Pension Reserve Fund shall be transferred to the Pension Accumulation Fund, and the balance of the former Annuity Reserve Fund shall be transferred to the Pension Accumulation Fund.

"(b) Annuity Savings Fund. The Annuity Savings Fund shall be a fund in which shall be accumulated contributions from the compensation of members to provide for their annuities.

"Contributions to and payments from the Annuity Savings Fund shall be made as follows: Effective October 1, 1971, each employer shall cause to be deducted from the salary of each member on each and every payroll of such employer for each and every payroll period five percent of his or her earnable compensation; except, that in the case of a state policeman, the rate of 10 percent of earnable compensation shall apply, and in computing all retirement benefits it shall be assumed that a seven percent rate of contribution had applied with respect to service as a state policeman prior to July 1, 1957. For all pay dates beginning on or after October 1, 2011, each employer, except those employers participating pursuant to Section 36-27-6, shall cause to be deducted from the salary of each member on each and every payroll of such employer for each and every payroll period seven and one-quarter percent (7.25%) of his or her earnable compensation; except, that in the case of a state policeman,
the rate of ten percent (10%) of earnable compensation shall apply. For all pay dates beginning on or after October 1, 2012, each employer, except those employers participating pursuant to Section 36-27-6, shall cause to be deducted from the salary of each Tier I plan member on each and every payroll of such employer for each and every payroll period seven and one-half percent (7.5%) of his or her earnable compensation; except, that in the case of a state policeman, the rate of ten percent (10%) of earnable compensation shall apply. For all pay dates beginning on or after January 1, 2013, each employer shall cause to be deducted from the salary of each Tier II plan member on each and every payroll period six percent (6%) of his or her earnable compensation; except that in the case of a state policeman, the rate of ten percent (10%) shall apply and in the case of a correctional officer, firefighter, or law enforcement officer as defined in Section 36-27-59, the rate of seven percent (7%) shall apply. For all pay dates beginning on or after October 1, 2020, each employer shall cause to be deducted from the salary of each Tier III plan member on each and every payroll period seven and one-half percent (7.5%) of his or her earnable compensation; except in the case of a Tier III plan member who is a correctional officer, firefighter, or law enforcement officer as defined in Section 36-27-59, the rate of seven and three-quarters percent (7.75%) shall apply. Any employer participating under Section 36-27-6, by adoption of a resolution, may elect for the increases in employee
contributions provided by Act 2011-676 to be withheld from the earnable compensation of employees of the employer. In
determining the amount earnable by a member in a payroll period, the Board of Control may consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing through such payroll period, and it may omit deductions from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period, and, to facilitate the making of deductions, it may modify the deductions required of any member by such an amount as shall not exceed one tenth of one percent of the annual compensation upon the basis of which such deductions are made.

"The deductions provided for in this subsection shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deduction made and provided for in this subsection and shall receipt for his or her full salary or compensation and payment of salary or compensation less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except as to the benefits provided under this article. The employer shall certify to the Board of Control in each and every payroll or in such other manner as the board may prescribe the amounts to be deducted, and each of the amounts shall be deducted and,
when deducted, shall be paid into the Annuity Savings Fund and shall be credited, together with regular interest thereon, to the individual account of the member from whose compensation the deduction was made.

"In addition to the contributions deducted from compensation as provided in this subsection, subject to the approval of the Board of Control, any member may deposit in the Annuity Savings Fund by a single payment or by an increased rate of contribution an amount computed to be sufficient to purchase an additional annuity which, together with his or her prospective retirement allowance, will provide for him or her a total retirement allowance not to exceed one half of his or her average final compensation at age 60. Such additional amounts so deposited shall become a part of his or her accumulated contributions, except in the case of retirement, when they shall be treated as excess contributions returnable to the member in cash or as an annuity of equivalent actuarial value and shall not be considered in computing his or her pension.

"The contributions and interest credits of a member withdrawn by him or her or paid to his or her estate or to his or her designated beneficiary in event of his or her death shall be paid from the Annuity Savings Fund. Should a member cease to be a member other than by retirement under the provisions of this article, an amount equivalent to the difference, if any, between his or her accumulated contributions and the amount then paid shall be transferred to
the Expense Fund. Upon the retirement of a member or the death
of an eligible member where an allowance to a surviving spouse
or other designated beneficiary is payable, his or her
accumulated contributions shall be transferred from the
Annuity Savings Fund to the Pension Accumulation Fund.

"Notwithstanding the preceding provisions, no
deductions shall be made from any member's salary on account
of which the employer's contributions are in default.

"The State Personnel Board, with the approval of the
Governor, may provide that the state shall pick up member
contributions to the Employees' Retirement System of Alabama
as required by this subsection on behalf of all state
employees who participate in the Employees' Retirement System
by a corresponding reduction in the salary of the member, such
pick-up to be mandatory for all such employees, and the
contributions so picked up shall be treated as employer
contributions in determining tax treatment under the Internal
Revenue Code. These contributions shall be paid from the same
source of funds which is used in paying earnings to the
employee. If employee contributions are so picked up they
shall be treated for all other purposes of state law in the
same manner and to the same extent as employee contributions
made prior to the date picked up.

"(c) Pension Accumulation Fund. The Pension
Accumulation Fund shall be the fund in which shall be
accumulated all reserves other than the amounts held in the
Annuity Savings Fund for the payment of all pensions, all
allowances granted to surviving spouses or other designated
beneficiaries and other benefits payable from contributions
made by the employer and from which shall be paid all
pensions, all allowances granted to surviving spouses or other
designated beneficiaries and other benefits on account of
members with prior service credit.

"Contributions to and payments from the Pension
Accumulation Fund shall be made as follows: On account of each
member there shall be paid monthly by the employer an amount
equal to a certain percentage of the earnable compensation of
each member to be known as the "normal contribution" and an
additional amount equal to a percentage of his or her earnable
compensation to be known as the "accrued liability
contribution," and these two amounts shall be paid monthly
into the Pension Accumulation Fund; provided, that in the case
of a state policeman, such percentage rates of contributions
shall be calculated separately. The percentage rate of such
contributions shall be fixed for each fiscal year on the basis
of the liabilities of the retirement system as shown by the
last annual actuarial valuation, and such percentage rate as
established by such valuation shall take effect the following
October 1 and continue in effect for the fiscal year.

"On the basis of regular interest and of such
mortality and other tables as shall be adopted by the Board of
Control, the actuary engaged by the board to make such
valuation required by this article during the period over
which the accrued liability contribution is payable shall,
immediately after making such valuation, determine the uniform
and constant percentage of the earnable compensation of the
average new entrant which, if contributed on the basis of his
or her compensation throughout his or her entire period of
active service, would be sufficient to provide for the payment
of any pension payable on his or her account. The percentage
rate so determined shall be known as the "normal contribution"
rate. The normal rate of contributions shall be determined by
the actuary after each valuation.

"The accrued liability contribution rate shall be
computed by the actuary on the basis of each valuation as the
percentage rate of the total annual compensation of all
members which is sufficient to liquidate the accrued liability
over a period to be determined by the Board of Control which
shall be not less than 10 nor more than 30 years.

"The unfunded accrued liability shall be computed by
the actuary as the total liabilities of the system which are
not dischargeable by the assets of the Annuity Savings Fund
and the Pension Accumulation Fund and the present value of the
aforesaid normal contributions.

"For purposes of computing the unfunded accrued
liability the assets shall be determined as follows:

"On September 30, 1997, the assets shall be
determined by using the market value of such assets. For
subsequent years the value of the assets shall be determined
by the system's actuary using a five year smoothed market
value.
"The total amount payable in each year to the Pension Accumulation Fund shall be not less than the sum of the percentage rates known as the normal contribution rate and the accrued liability contribution rate of the total compensation earnable by all members during the preceding year.

"All interest and dividends earned on the funds of the retirement system shall be credited to the Pension Accumulation Fund. The amounts needed to allow a regular interest on the reserves in the Annuity Savings Fund shall be transferred in accordance with this article from the Pension Accumulation Fund. The Board of Control, in its discretion, may transfer to and from the Pension Accumulation Fund the amounts of any surplus or deficit which may develop in the Annuity Savings Fund, or the Expense Fund.

"Upon the death of a member on account of whom no survivor allowance is payable under subdivisions (2) and (3) of subsection (c) of Section 36-27-16, the death benefit as provided in subdivision (4) of subsection (c) of Section 36-27-16 equal to the accumulated contributions, not to exceed $5,000.00, shall be payable from the Pension Accumulation Fund.

"(d) Expense Fund. The Expense Fund shall be the fund from which the expenses of the administration of the retirement system shall be paid, exclusive of amounts payable as retirement allowances and as other benefits provided in this chapter. In addition thereto and on account of each
member of the retirement system, there shall be paid monthly by the employer an amount equal to a certain percentage of the earnable compensation of each member for the administrative expenses of the retirement system. The percentage rate of such contribution shall be fixed by the Board of Control on the basis of the cost exclusive of that provided by interest not returnable. Any amounts credited to the accounts of the members withdrawing before retirement and not returnable under the provisions of subsection (c) of Section 36-27-16 shall be credited to the Expense Fund.

"(e) Employer's contributions. For each biennium beginning October 1, 1965, each employer shall pay to the retirement system the rates provided in this section and thereafter, at least 30 days preceding October 1 of each fiscal year, the Board of Control shall certify to the chief fiscal officer of each employer the percentage rates of earnable compensation of the members required to be paid to the retirement system in accordance with subsections (c) and (d) of this section.

"The employer's contribution on account of the membership of employees whose salaries are paid in whole or in part from funds derived from federal grants shall be paid from funds derived from the federal grants in accordance with statutes governing the administration of the grants and in proportion to salaries paid therefrom. At such time and in such manner as may be required, the Board of Control shall certify to each department of state receiving a federal grant
the amount due and payable from the grant as the employer's contribution to the retirement system on account of the membership of the department whose salaries are paid in whole or in part from funds derived from such federal grants. The fiscal agent of the department shall authorize the state Comptroller to draw a warrant or warrants in payment of the amount certified as due and payable from federal grants.

"(f) Appropriations. There is hereby appropriated annually from the fund from which salaries of the employees of each employer are paid the amounts sufficient to carry out the provisions of this section. In the case of those departments supported wholly by transfers from other state funds, there is hereby appropriated from the supporting funds such additional amounts as may be necessary to pay the employer contribution of each department so supported in the same proportion as the other state funds contribute to the support and maintenance of such department.

"(g) Employer cost provided for in this article together with member contributions required under this article shall be paid to the Employees' Retirement System on the first day of the month following the month in which the related member salary is earned. Delinquent accounts shall accrue interest at the actuarial assumed investment rate beginning 30 days after the original due date. The member contributions for each member shall be reported to the Employees' Retirement System in a format prescribed by the Employees' Retirement System.
§36-27-59.

"(1) CORRECTIONAL OFFICER. A full-time correctional officer who is certified as a correctional officer by the Alabama Peace Officers' Standards and Training Commission.

"(2) FIREFIGHTER. A full-time firefighter employed with the State of Alabama, a municipal fire department, or a fire district who has a level one minimum standard certification by the Firefighters Personnel Standards and Education Commission, or a firefighter employed by the Alabama Forestry Commission who has been certified by the State Forester as having met the wild land firefighter training standard of the National Wildfire Coordinating Group.

"(3) LAW ENFORCEMENT OFFICER. A full-time law enforcement officer, not covered as a state policeman, employed with any state agency, department, board, commission, or institution or a full-time law enforcement officer employed by a local unit of the Employees' Retirement System under Section 36-27-6 who is certified as a law enforcement officer by the Alabama Peace Officers' Standards and Training Commission.

"(b)(1) Any firefighter, law enforcement officer, or correctional officer covered under the Employees' Retirement System or the Teachers' Retirement System as a Tier I plan member, upon attainment of the requisite years of creditable
service or who otherwise qualifies for service or disability 
retirement, shall be awarded one year of hazardous duty time 
for every five years of service as a firefighter, a law 
enforcement officer, or a correctional officer provided that 
the person has made the additional contribution provided in 
subdivision (2) or paid the additional contribution required 
in subsection (c) for each year of service used in determining 
hazardous duty time for the person. Proportional credit shall 
be awarded for any period of service less than five years.

"(2) Effective January 1, 2001, and each pay period 
thereafter, each active employee who is a firefighter, law 
enforcement officer, or correctional officer, as defined in 
subsection (a), shall contribute to the Teachers' or 
Employees' Retirement System of Alabama six percent of his or 
her earnable compensation. For all pay dates beginning on or 
after October 1, 2011, each active employee who is a 
firefighter, law enforcement officer, or correctional officer, 
as defined in subsection (a), except those employees 
participating pursuant to Section 36-27-6, shall contribute to 
the Teachers' or Employees' Retirement System of Alabama eight 
and one-quarter percent (8.25%) of his or her earnable 
compensation. For all pay dates beginning on or after October 
1, 2012, each active employee who is a Tier I plan member and 
who is a firefighter, law enforcement officer, or correctional

"(c) Any member of the Employees' Retirement System or the Teachers' Retirement System eligible under subsection (b) may receive credit for his or her eligible prior service provided the member pays to the Secretary-Treasurer of the Employees' Retirement System or the Secretary-Treasurer of the Teachers' Retirement System one percent of his or her current annual earnable compensation or previous year's annual earnable compensation, whichever is higher, for each year of claimed credit within two years of January 1, 2001, except that any firefighter employed by the Alabama Forestry Commission shall make such payment within two years of December 28, 2001. Any member participating in the Employees' Retirement System under Section 36-27-6, who has eligible prior service under this section and who also had no prior eligibility to purchase prior service credit under this subsection, may purchase prior service credit under this section at the same rate provided in subsection (b) within one year of the effective date of his or her enrollment with the Employees' Retirement System or within one year of August 1, 2004. The member may purchase his or her claimed credit in increments of five years, unless the total service credit is

The member shall provide certification from each employing agency, on forms prescribed by the Teachers' or Employees' Retirement System, of each year of claimed service, as a prerequisite to payment under this section.

"(d) The provisions of this section shall not apply to any Tier II or Tier III plan member."

Section 2. This act shall become effective immediately following its passage and approval by the Governor, or its otherwise becoming law.
