Application and Certification for Out-of-State Service Credit

Instructions and Checklist for Purchasing Out-of-State Service

An active and contributing member of the Retirement Systems of Alabama (RSA) with ten years contributing membership service may purchase up to ten years of out-of-state service in public education or public employment. Service credit must have been established with another public retirement system and either withdrawn, terminated, canceled, or forfeiture declaration made (this usually means your funds have been withdrawn and returned to you).

You may purchase out-of-state service in increments of not less than one year (unless your total service or balance is less than one year). The deadline for purchasing out-of-state service is the effective date of your retirement. The cost for this service is calculated on the actuarial value of this service based on your age, average salary, total service at the time of your purchase, and the time remaining until your earliest retirement eligibility date.

Members are not eligible to purchase credit for out-of-state service if at the time of retirement the member is entitled to receive any benefits whatsoever for the same service under any other retirement or pension plan except Social Security.
