RSA Modernization Project Go-Live Notice

On April 1, 2019, the RSA will go-live with the final phase of its IT Modernization Project. To transition to the new system, the Member Online Services (MOS) portal will be taken down on Friday, March 22, at 1 p.m. It is scheduled to come back online on Monday, April 1.

The reporting process will be closed on April 1 and 2 as we test that the new system is working correctly. We anticipate all functions returning to normal by April 3.

Thank you in advance for your patience and understanding as we take this important step towards securing the RSA's future.

Don Yancey
RSA Deputy Director
