

Will started deferring \$50 monthly into his RSA-1 Deferred Compensation Plan account when he was 25 years old. At age 55, Will's account balance will be \$50,226.

Katherine started deferring \$75 monthly into her RSA-1 Deferred Compensation Plan account when she was 35 years old. At age 55, Katherine's account balance will be \$34,653.

Both contributed a total of \$18,000 but Will contributed a smaller amount each month over a longer period of time and still accumulated \$15,573 more than Katherine. This is the power of compounding.

*** This example assumes a 6% rate of interest and is for illustrative purposes only. It is in no way indicative of the future performance of any of the investment options available through RSA-1.**
